GOVERNMENT OF INDIA.

DEPARTMENT OF INDUSTRIES AND LABOUR.

MINES REGULATIONS.

FROM

A. H. LEY, ESQ., C.I.E., I.C.S.,
Secretary to the Government of India,

TO

ALL LOCAL GOVERNMENTS AND ADMINISTRATIONS.

Dated Simla, the 22nd June 1923.

SUBJECT :—*Employment of women in mines and introduction of a system of shifts.*

SIR,

I am directed to address you with regard to two important questions in connection with the regulation of mines, namely, the employment of women in mines and the introduction of a system of working by shifts

2. *The employment of women in mines.*—Section 20, sub-section (*2*) (*l*) of the Indian Mines Act, 1901, enables the Governor-General in Council or the Local Government to make rules prohibiting, restricting or regulating the employment of women below ground or on particular kinds of labour where such employment is attended by danger to the life, safety or health of such women. In the twenty-two years since the Act was passed no rules appear to have been made under this sub-section. It will be observed that rules could be made only if it could be proved in each case that the employment was attended by *danger* to life, safety or health and not because of objections based on general, social or hygienic considerations. When framing the Bill which has since become Act IV of 1923 and will come into force on the 1st July 1924, the Government of India considered carefully a proposal to prohibit forthwith the employment of women in mines by statute. They came to the conclusion that it would be inexpedient to make any such provision immediately effective in view of the fact that women form more than a third of the mining labour of the country and the immediate prohibition of their employment would very seriously disorganize a very important key industry. In the Bill introduced in the Legislative Assembly in September 1922, two provisions were inserted bearing on this point. In the first place it was proposed to prohibit the presence of all children below ground in a mine. This provision has since become law (section 26 of the Act of 1923), and will, it is anticipated, automatically involve the exclusion from mines of some proportion of the women who would otherwise work below ground. Secondly, in clause 30 (*d*) of the Bill it was proposed to give the Local Government power to prohibit, restrict or regulate the presence or employment in mines of women either above or below ground, or on particular kinds of labour. It will be noticed that this was a very much wider authority than either the Government of India or Local Governments possess under the Act of 1901. After the Bill was introduced there was considerable discussion on the subject in the press and elsewhere. The Joint Committee of the Indian Legislature to which the Bill was referred devoted particular attention to this point. In their report they made the following observations on the subject :—

"*Employment of women.*—The present law regarding the employment of women is contained in section 20 (2) (*l*) of Act VIII of 1901. This is a provision which enables rules to be made prohibiting, restricting or regulating the employment of women either below ground or on particular kinds of labour where the employment is attended by danger. The rule-making power vests

in the Governor-General in Council or the Local Government. The Bill referred to us in clause 30 (*d*) enables a Local Government, subject to control, to make rules prohibiting, restricting or regulating the presence or employment in mines of women, either above or below ground or on particular kinds of labour. It is, we think, generally realized that the absolute prohibition of the employment of women below ground in coal mines is a mere matter of time. It cannot be introduced at once because time must be given to employers to replace the labour of the 90,000 women who are at present working in mines. Some of us pressed for the inclusion of a statutory prohibition in the Bill with a provision that it should not come into force for five years after the passing of the Bill. We think, however, that this would involve such a radical alteration in the Bill that recirculation would be essential, and as we are reluctant to delay its passage, we think it desirable to attempt to effect a compromise. We have, in the first place, transferred the provision relating to the employment of women from clause 30 to clause 29 of the Bill, so that the power of control may vest in the Governor-General in Council. We have further re-drafted the provision so as to follow more closely the wording of the present law. We desire, however, to place on record a recommendation that the question of the employment of women below ground in mines should be taken up at a very early date with Local Governments with a view to prohibiting such employment either in all mines or in particular classes of mines at the end of a specified period, which we think should be about five years."

In accordance with the recommendation of the Joint Committee, section 29 (*j*) of the Act of 1923 empowers the Governor-General in Council "to make regulations............for prohibiting, restricting or regulating the employment in mines or in any class of mines of women either below ground or on particular kinds of labour which are attended by danger to the life, safety or health of such women." I am to invite attention to the phraseology of the clause. The power conferred on the Government of India is not as wide as was proposed for Local Governments in the Bill as originally introduced, for, in the case of labour, *other than below ground*, the Government of India must be satisfied, as in the Act of 1901, that the labour of the women concerned is attended by danger to their life, safety or health.

3. In accordance with the suggestion made in the report of the Joint Committee and quoted above, I am to ask for the views of the Local Government on the question of framing regulations under clause (*j*) of section 29 of Act IV of 1923.

4. The question of the prohibition of the employment of women in mines was raised by the Secretary of State for India as long ago as 1890, when Lord Cross forwarded to the Government of India the proceedings of the Berlin Conference and suggested that Government should consider the advisability of legislating for the regulation of the employment of women in mines The Government of India took the question up along with the general proposals for the regulation of mines to insure the health and saftey of the workers The Bill framed in 1899, for the inspection and regulation of mines, contained a clause empowering an Inspector of Mines to prohibit the employment of women when such employment was dangerous, or unsuited, to female labour; and another clause empowering the Governor General in Council, and the Local Government, to make rules prohibiting, restricting or regulating the employment of women below ground or on particular kinds of labour. When the Bill was submitted to the Secretary of State for his approval, the Secretary of State noted that, while the Bill provided for the supervision and control of female labour, it did not prohibit the employment of women altogether, he warned the Government of India that, as the mining industry developed, it would become increasingly difficult to prohibit the employment of women, and suggested that the question of further safeguarding such employment should be carefully considered in Committee. When the Bill was circulated, the provisions regulating the employment of women aroused considerable criticism, and expression was given to the fear that if steps were taken to prevent their female relatives from going below ground with the male workers, the latter would themselves refuse to work in the mines. It was argued that the conditions of employment in Indian mines were fundamentally different from those in western countries; that Indian mine labour worked in family gangs, the women assisting their relatives and helping to swell their earnings and that, when proper precautions were taken to secure ventilation and to make the workings healthy, conditions in the mines were not unpleasant or prejudicial to health. When the Bill was finally considered in the legislature the provisions relating to the employment of women were altered into the form in which they appear in the Act of 1901.

5. Since that time, mining conditions have undergone a considerable change Indian mining is no longer in its infancy. The mines are deeper, and the risk of danger is accentuated. There is a steadily increasing body of public opinion, which strongly deprecates the continued employment of women in mines. The Government of India accept the view of the Joint Committee of the Indian Legislature that the time has now come to consider seriously the prohibition of employment of women underground, particularly in coal mines, in which probably the conditions of work are hardest and open to most objection. As stated above, however, more than a third of the total

mining community are women, and although manual labour in mines is to some extent being supplanted by machine cutters, it is an undoubted fact that the sudden removal of female labour from underground work in mines would seriously dislocate the industry, and possibly compel a number of mines to close down. The only way of minimizing such a dislocation would be by giving the mine-managers sufficient notice of the intentions of Government, to enable them to secure and train the new labour which they will require, when the underground employment of women is prohibited.

6. I am now directed to ask that the Government of India may be favoured with the views of the Local Government on the general proposition that the employment of women in mines, or in particular classes of mines, should be prohibited at some specified time, e g, five years after the new Mines Act comes into force. I am in particular to enquire whether the Local Government would make the prohibition a general one, or applicable only to certain classes of mines, such as coal mines, and whether the period of grace suggested before the prohibition comes into effect, viz., five years, is suitable. The Government of India are provisionally of opinion that the prohibition should apply only to workings which extend beneath the superjacent ground; there would appear to be no greater objection to the employment of women above ground or in open quarries or shallow pits than to their employment on ordinary earth-work But on this point too the Government of India would be glad of the views of the Local Government.

7. *The introduction of a system of shifts in coal mines.*—In the course of the discussions in the Indian Legislature on the clause enacted as section 23 of the new Indian Mines Act, which prescribes weekly limits of work for mine-labourers generally, it was contended in certain quarters that the prescription of a weekly limit did not go far enough; it was urged that in the coalfields miners worked sometimes for 18 hours a day, a practice which the prescription of a weekly limit would not stop It was recognized, however, that under present conditions of mine-labour in the coalfields it was impracticable to insist on a daily limit of hours, although it might be possible, if due warning were given to the mine-owners, to introduce at some later date a system of shifts, which would automatically restrict the hours which an individual labourer could work in a single day. I am to note here that the Act of 1923 does not authorise the enforcement of a system of shifts and if any such system is to be made compulsory, fresh legislation will be necessary.

8. From the point of view of the proper and economic working of the collieries there is little doubt that the introduction of a syftem of shifts would be an advantage. Instead of relying as at present on a fluctuating labour supply, which works for perhaps three days and absent itself for the remainder of the week, the mine-manager would be assured of a constant supply of regular labour. This argument was urged by Mr. Treharne Rees in 1919 after a careful examination of mining methods in the Indian coalfields; and the principle of a shift system appears generally to have commended itself to the Coalfields Committee in 1920, though that Committee were of opinion that in view of the then existing labour conditions it would be premature to enforce such a system by statute. The crux of the difficulty is undoubtedly the effect which the introduction of fixed and limited hours of work would have on the labour population at the mines. Although it is an accepted fact that the restriction of daily working hours to a reasonable limit ordinarily makes for a more contented and efficient labour force, it is certain that in the peculiar conditions of mining labour in the coalfields a statutory restriction of this nature, imposed without due warning, would be unwelcome to the miners and might quite possibly drive a number of them away to other employment, where they would be free of statutory interference. If such was the case, the proposed legislation, while doing little good to the labourers themselves, would seriously affect the coal industry and, by curtailing the output of coal, be a source of grave embarrassment to other industries which depend on coal for their source of power.

9. The Government of India are, however, provisionally of opinion that any such dislocation of the labour supply could be minimized by giving the industry ample warning that a compulsory shift system would be introduced in coal mines on a fixed date some years hence. They are inclined to the view that, if as appears to them probable, the change in the methods of work in the coal mines which the introduction of a system of shifts would involve would be to the ultimate advantage at once of the mine-owners and of the labourers themselves, the introduction of this change is probably only a matter of time. It might be possible in the first instance to arrange the shifts in such a manner as to interfere as little as possible with existing mining practice. For instance, it has been suggested that, to commence with, the day might be divided into two shifts of twelve hours each (6 A.M. to 6 P.M. and 6 P.M. to 6 A.M.). The Government of India are inclined to the view that, as the labourers become used to the stricter regulation of hours which a shift system postulates, the time will come when a shorter working day with definite rest intervals will have to be imposed.

10. I am to ask for the views of the Local Government on this question, both generally and with particular regard to the following points:—

(a) whether the introduction of a compulsory system of shifts is practicable and advisable;

(b) what period of grace should be given before any legislation enforcing such a system should be imposed;

(c) what limit should be placed on the working day, and what particular system of shifts should be enforced;

(d) whether such legislation should apply to any mines other than coal mines;

(e) if applied only to coal mines, whether it should be enforced in all coalfields without exception. Attention is in this connection invited to paragraph 47 of the Report of the Coalfields Committee. The Government of India believe that the views of that Committee that any such system, if adopted at all, should be adopted universally, are likely to meet with general approval.

11. The Local Government will realize that this question of the introduction of a system of shifts is on a different footing from the question of prohibiting the employment of women, since the latter can be effected by regulations made under the Act of 1923, while the former would require legislation. In these circumstances, the Local Government may find it convenient to deal with the two questions independently, making each the subject of a separate reply.

I have the honour to be,

Sir,

Your most obedient servant,

A. H. LEY,

Secretary to the Government of India.

NOTIFICATION.

No. 1522Mis.—The 14th July 1923.—The Governor in Council is pleased to make the following revised rules for the regulation of appointments in the clerical service of the Secretariat of the Government of Bengal and certain Government offices in future in supersession of all previous rules issued on the subject.

A. MARR,
Secretary to the Government of Bengal.

Rules for the regulation of appointments in the clerical service of the Secretariat of the Government of Bengal.

The clerical service of the Secretariat of the Government of Bengal is divided into two divisions—the Upper Division and the Lower Division.

UPPER DIVISION.

2. The Upper Division of the clerical service in the Secretariat is graded as follows:—

(*a*) Rupees 125 a month on probation for two years.
(*b*) After confirmation a time scale of pay, Rs. 150—10—250—15—400, with an efficiency bar at the stage of Rs. 250
(*c*) Two selection grades, one of Rs. 325 25—400 alongside the above time scale, and another of Rs. 425—25 - 500 beyond it. The former selection grade is limited to 15 per cent. of the number in the Upper Division

Special pay of Rs. 100 per mensem attaches to certain of the posts of Head Assistants.

3. Vacancies which occur in the Upper Division of each department will be filled by the following methods:—

(*a*) Direct recruitment of candidates by means of a competitive examination, which will be the same as that prescribed for the recruitment of the Bengal Civil Service (Executive) and other services in Bengal The rules regulating the recruitment of these services will apply in the case of direct recruitment of the Upper Division of the Secretariat. These rules may be obtained on application from the Appointment Department of this Government.
(*b*) Selection of suitable Europeans or Eurasians. The educational attainments required of such candidates will be the Intermediate Examination, the Senior Cambridge Local Examination, the Cambridge Senior School Certificate Examination or a certificate that the candidate has passed the final examination of the advanced Commercial Classes. In this case preference will be given to graduates.
(*c*) Promotion from the Lower Division.

No clerk in the Lower Division, however, has, as a matter of right, any claim to promotion in the Upper Division, which will be given strictly according to merit.

One-third of the vacancies in the Upper Division will be filled up by method (*c*) after all the assistants who were recruited previous to April 1910 and are considered fit for promotion to the Upper Division have been provided for in that division. This rule will not, however, affect the appointment of Muhammadans under rule 14 or the appointment of Anglo-Indians to the special branch of the Political Department of this Government.

4. For the purpose of the selection of candidates under rule 3 (*b*), the Director of Public Instruction shall be asked to submit, in consultation with the authorities of European colleges and schools, the names of two or three candidates for each vacancy who possess the qualifications prescribed. From among these a selection will be made by the Secretaries at a meeting.

5. Candidates selected under rules 3 (*a*) and 3 (*b*) will be on probation for two years, during which they will draw pay at the rate of Rs. 125 per month. Candidates selected under rule 3 (*c*) will on confirmation commence at Rs. 170 in the time scale of Rs. 150—10—250—15—400 for the Upper Division.

LOWER DIVISION.

6. The Lower Division of the clerical service of the Secretariat is graded as follows :—

(*a*) Rs. 60 a month on probation for two years.
(*b*) After confirmation a time scale of pay Rs. 65—4—145—145—150, with an efficiency bar at the stage of Rs. 105.
(*c*) Selection grade of Rs 175—25—200 for clerks of special merit (limited to 10 per cent. of the Lower Division in each Department) who have passed at least three years on the maximum of the time scale.

The bar in the time scale will apply in the case of those clerks who are employed on purely routine work, such as despatcher, sorter, recorder, indexer, diarist, inter-departmental clerk, file-keeper, etc.

7. The vacancies which occur in the Lower Division of the departments of the Secretariat will be filled up by means of a competitive examination. In special cases, as laid down in rules 13 and 14, appointments may be made by nomination.

8. The examination will be held in the month of August of each year. The arrangement for the examination will be made by the Central Examination Committee, Bengal, who will be assisted by paid examiners, and will act in communication with the Secretary to the Government of Bengal, Finance Department.

9. Candidates will be required to produce evidence that they have been through a complete secondary school course. In the case of Europeans and Anglo-Indians, applicants may be accepted who have obtained the elementary school certificate and have taken the supplementary commercial course prescribed by the European School Code. Every candidate must submit before the 15th July a written application for permission to appear at the examination.

10. The application under the last rule shall be in the form given in the margin, and must be accompanied by a treasury receipt for the sum of Rs 10. This sum the candidate is required to pay into the treasury nearest his place of residence by way of examination fee and in no circumstances will this sum be refunded.

8. No cargo boat shall be employed for the conveyance of explosives between Moyapur, Diamond Harbour and Uluberia, unless covered by a special license issued by the Port Commissioners. Every precaution shall be taken to insure the safety of the explosives while in the boat, but the landing and shipping shall be at the risk of the vessel.

15 Vessels bringing consignments of trade explosives shall be allowed the use of the magazine powder-boat ; but, should passing vessels require the use of the boat to put out or take in ship's explosives, such vessels shall be accommodated before the boat is used to discharge explosives brought as cargo. The landing of trade explosives, whether the station boats or private boats are employed, shall be at the risk and expense of the consignees of the explosives, and no liability shall be accepted for damage sustained while in course of landing or until the consignments are stored in the magazine.

18. The magazine-keeper shall give to the Master of any vessel landing explosives at the magazine a receipt for the number of packages, and the magazine-keeper shall be accountable to such Master for the re-delivery of such packages.

19. A clerk shall always be in attendance in the magazine powder-boat, and shall receive from the Master the declaration specified in rule 3.

22. Masters of vessels, who have deposited ship's explosives at the magazine, shall inform the Harbour Master of the date on which the vessel will pass the magazine outward-bound, and, on receipt of this information, orders shall be forwarded to the magazine-keeper to place the said explosives in the magazine powder-boat, and to send it off at such time as will avoid any detention of the outward-bound vessel. Before taking the explosives on board, the receipt granted by the magazine-keeper shall be given up.

Explosive that may be landed at Prinsep's Ghat.

23. Such boats as are approved for this purpose by the Boat Surveyor to the Port Commissioners shall be permitted to take on board at the Moyapore Magazine and bring as far as Prinsep's Ghat, under cover of licenses to be granted by the Commissioner of Police in such form as may be prescribed by the Local Government, 500 lbs. of trade gunpowder which is the property of dealers and consignees. For each boat the dealers shall supply an armed guard (pensioned sepoy), whom the Commissioner of Police, Calcutta, will select.

The provisions of rules 23, 24 and 25 shall apply to Chinese crackers, provided that dealers in Chinese crackers shall not be required to employ an armed guard or to maintain a boat exclusively for the purpose of carrying Chinese crackers. The boats that are used for this purpose must be approved by the Boat Surveyor to the Port Commissioners.

Explosives that may be landed at the docks or jetties.

27. Explosives specified in the first division, class 6, of the Indian Explosives Rules, 1914, viz., safety cartridges, safety fuzes for blasting, railway fog-signals, and percussion caps which have been brought as part of a general cargo, and placed on board the vessels while lying in dock at ports of shipment, may be brought into port and landed at the docks or jetties in accordance with the regulations prescribed in that behalf in the Port Commissioners' by-laws.

The term "safety fuze" means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction and contains an explosive in such quantity that the burning of such fuze will not communicate laterally with other like fuzes.

The expression "safety cartridges" means cartridges for small-arms of which the case can be extracted from the small-arm after firing, and which are so closed as to prevent any explosion in one cartridge being communicated to other cartridges. The term also includes rifle-calibre machine-gun cartridges if they are of the above description, whether they are for use with machine-guns having chambers identical with those of rifles, or with machine-guns which have special chambers.

The maximum diameter at which a small-arm or machine-gun cartridge can be accepted as "safety" is one inch.

28. Explosives shall not be landed within the port or at Moyapore or Diamond Harbour at any time when it is necessary to use artificial lights, and no explosives shall be landed, received into, or delivered from the magazine when it is necessary to use artificial lights.

29. Whoever contravenes any of the provisions of rule 2, 3, 4, 5, 6, 7, 8, 9, 10, 20, 21, 23, 25 or 28 shall be punished with fine which may extend to the amount mentioned in the proviso to section 5 (*3*) of the Indian Explosives Act, 1884 (IV of 1884).

Any person who has, in respect of any land or building which has been assessed to the consolidated rate, paid the occupier's share of such rate for the whole of any quarter, shall be entitled to a refund of the rate so paid for any period in that quarter during which he did not occupy such land or building, provided that such person has given notice in writing of the facts to the Executive Officer.

Abandonment of acquisition in consideration of special payment

311. (*1*) In any case in which the Local Government have sanctioned the acquisition of land under section 310, sub-section (*2*), the owner of the land, or any person having an interest therein greater than a lease for years having seven years to run, may make an application to the Corporation, requesting that the acquisition of the land be abandoned in consideration of the payment by such person of a fee to be fixed by the Corporation in that behalf.

(*2*) The Corporation shall admit every such application if it reaches them before the time fixed by the Collector under section 9 of the Land Acquisition Act, 1894, for making claims in reference to the land: I of 1894

Provided that unless the application is made by all the persons who have an interest in the land greater than a lease for years having seven years to run, the application shall not be deemed to be admitted unless the person applying undertakes to pay in one instalment the full fee payable under sub-section (*3*) and thereafter pays such fee.

Explanation.—A mortgagee shall not be deemed to be a person having an interest in the land greater than a lease for years having seven years to run.

(*3*) If the Corporation decide to admit any such application, they shall forthwith inform the Collector, and the Collector shall thereupon stay proceedings for the acquisition of the land, for such period as the Corporation may request, and the Corporation shall proceed to fix a fee in consideration of which the acquisition of the land may be abandoned.

(Part V.—Chapter XX.—Streets and public places.—Section 311.)

(*4*) In fixing the fee to be paid in consideration of the abandonment of the acquisition of the land, the Corporation shall, so far as to them may appear to be practicable, fix a sum which in their opinion represents two-thirds of the increment in the value of the land, which will in their opinion accrue to that land as a result of the improvements effected in the locality by the scheme for the purposes of which the acquisition has been sanctioned.

(*5*) Such fee shall be and remain a charge on the land, in respect of which it has been fixed, until the repayment thereof with interest in the manner hereinafter provided and shall be payable by the applicant on or before a date to be fixed by the Corporation in this behalf; and such date shall not be less than four years from the publication of the notification under section 6 of the Land Acquisition Act, 1894, nor shall such date be a date before that on which the scheme is declared by the Corporation to be completed in so far as it affects such land. I of 1894

(*6*) Before the date so fixed, the person from whom the Corporation have arranged to accept the said fee, may, if the Corporation are satisfied that the security offered by him is sufficient, execute an agreement with the Corporation either—

(*i*) to leave the said fee outstanding as a charge on his interest in the land, subject to the payment in perpetuity of interest at a rate not exceeding seven *per cent. per annum*, the said interest to run from the date fixed under sub-section (*5*), or

(*ii*) to pay the said fee by such number of equal yearly or half-yearly instalments of principal or of principal and interest, as may be approved by the Corporation, interest in both cases being calculated at a rate not exceeding seven *per cent. per annum* on the amount outstanding.

(*7*) When the said fee has been paid on or before the date fixed under sub-section (*5*), or when an agreement has been executed in pursuance of sub-section (*6*) in respect of any land, the proceedings for the acquisition of the land shall be deemed to be abandoned.

(*8*) If the said fee be not paid on or before the date fixed under sub-section (*5*), the Collector shall then proceed to acquire the land.

(*9*) If any sum payable under an agreement executed in pursuance of sub-section (*6*) be not paid on the date on which it is due, or on such later date as the Corporation may in their discretion fix in this behalf, so much of the fee fixed by the Corporation under sub-section (*3*) as is still unpaid, shall be payable on that date, in addition to the said sum.

(Part V.—Chapter XX.—Streets and public places.—Sections 312—314.)

(*10*) At any time after an agreement has been executed in pursuance of clause (*i*) of sub-section (*6*) any person may pay off the balance outstanding of the charge created thereby, with interest due, if any, at a rate not exceeding seven *per cent. per annum*, up to the date of such payment.

Recovery of money payable in pursuance of section 311

312. When an agreement has been executed by any person in pursuance of section 311, sub-section (*6*), in respect of any land, and any money payable in pursuance of that section is not duly paid, the same shall be recoverable by the Corporation (together with interest up to the date of realization, at a rate not exceeding seven *per cent. per annum*), under the provisions of this Act;

and, if not so recovered, the Corporation may, after giving public notice of their intention to do so, and not less than one month after the publication of such notice, sell the interest of the said person or successor in such land by public auction, and may deduct the said money and the expenses of the sale from the proceeds of the sale, and shall pay the balance (if any) to the defaulter.

Agreement or payment under section 311 not to bar acquisition under a fresh declaration.

313. If any land in respect of which an agreement has been executed, or a payment has been accepted, in pursuance of section 311, sub-section (*6*), be subsequently required for any of the purposes of this Act, the agreement or payment shall not be deemed to prevent the acquisition of the land in pursuance of a fresh declaration published under section 6 of the Land Acquisition Act, 1894. I of 1894.

Special provisions as to private streets.

Making of new private streets

314. (*1*) Any person intending to make or lay out a new private street shall send to the Corporation a written notice, with plans and sections showing the following particulars of the proposed street, namely:—

(*b*) the arrangements to be made for levelling, paving, metalling, flagging, channelling, sewering, draining and lighting the street.

(*2*) The provisions of this Act as to the width of public streets and the height of buildings abutting thereon, and as to projected public streets, shall respectively apply in the case of streets referred to in sub-section (*1*); and all the particulars referred to in that sub-section shall be subject to approval by the Corporation:

Provided that the Corporation may allow a private street to be made or laid out of a width less than forty feet but not less than twenty feet, and, if the street is less than two hundred feet in length, the maximum width of such street may ordinarily be taken to be thirty feet instead of forty feet.

(Part V.—Chapter XX.—Streets and public places.—Sections 315, 316.)

(*3*) Within ninety days after the receipt of any notice under sub-section (*1*), the Corporation shall either sanction the making of the street, or disallow it, or ask for further information with respect to such street.

(*4*) Such sanction may be refused—

(*i*) if the proposed street would conflict with any arrangements which have been made, or which are in the opinion of the Corporation likely to be made within a reasonable period, for carrying out any general scheme of street improvement, or

(*ii*) if the proposed street does not conform to the provisions of this Act referred to in sub-section (*2*), or

(*iii*) if the proposed street is not designed so as to connect at one end with a street which is already open.

(*5*) If further information is asked for under sub-section (*3*), no steps shall be taken to make or lay out the street until orders have been passed upon receipt of such information, and such orders shall be passed within ninety days of the receipt of such further information.

(*6*) If within ninety days after the receipt of any notice under sub-section (*1*), or within ninety days after the receipt of any further information asked for under sub-section (*3*), the Corporation has not refused sanction to the making of the private street, it shall be deemed that sanction to the same has been granted.

Prohibition of breach of section 314

315. Except as provided in sub-section (*6*) of section 314, no person shall make or lay out any street referred to in sub-section (*1*) of that section,—

(*a*) until he has obtained the sanction of the Corporation under that section, or

(*b*) in contravention of any orders made thereunder.

316. (*1*) If any person makes or lays out any street referred to in section 314, sub-section (*1*), without having obtained the sanction of the Corporation under that section, or in contravention of any orders made thereunder, they may, whether or not the offender be prosecuted under this Act, by written notice,—

(*a*) require the offender to show sufficient cause, by a written statement signed by him and sent to the Corporation on or before such day as may be specified in the notice, why such street should not be altered to their satisfaction or, if such alteration be impracticable, why such street should not be demolished, or

(*b*) require the offender to appear before them, either personally or by a duly authorized agent, on such day and at such time and place as may be specified in the notice, and show cause as aforesaid.

(*2*) If any person on whom such notice is served fails to show sufficient cause, to the satisfaction of the Corporation, why such street should not be so altered or demolished, they may cause the street to be so altered or demolished, and the expenses thereof shall be paid by such person.

(*Part V.—Chapter XX.—Streets and public places.—Sections 317, 318.*)

317. (*1*) If any private street or any part thereof be not levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the Corporation, they may, by written notice to the owner of such private street or the respective owners of the land fronting, adjoining or abutting upon such street or part, as the case may be, from time to time require them to level, pave, metal, flag, channel, sewer, drain and light such street or part.

(*2*) If such notice be not complied with and the Corporation, under section 510, sub-section (*2*), execute the works mentioned or referred to therein, the expenses thereby incurred shall be paid by the owner of such private street or the owners in default, in such proportion as may be settled—

(*a*) by the Corporation, or,

318. If any private street which conforms to the provisions of this Act referred to in section 314, sub-section (*2*), be levelled, paved, metalled, flagged, channelled, sewered, drained and lighted to the satisfaction of the Corporation, and if a majority of—

(*a*) the owners of land or buildings in such street, or

(*b*) the owners of the street, or

(*c*) the owners who have paid the expenses referred to in section 317, sub-section (*2*),

signify in writing their consent thereto, the Corporation shall declare the same, by written notice put up in any part of such street, to be a public street, and thereupon the same shall become a public street and shall vest in the Corporation:

Provided that, where a private street has been in existence for not less than thirty years and is used by the people of the locality as a thoroughfare, the Corporation may declare such street to be a public street even though it does not strictly comply with the provisions of this chapter, if—

(*a*) the owners of lands and buildings in such street, or

332. The Corporation shall not refuse sanction to the erection of a boundary wall exceeding ten feet in height or to any addition to any boundary wall so as to make it exceed ten feet in height on the ground that such boundary wall or such addition would cause interference with an existing easement in favour of, or prevent the acquisition of an easement by, the owner of adjacent premises.

CHAPTER XXII.

BUSTEES

Preliminary.

Power to Corporation to define and alter limits of *bustees*

335. The Corporation may define the external limits of any *bustee*, and may from time to time alter such limits.

Restriction on application of this chapter to certain *bustees* or to masonry buildings in *bustees*

336. None of the powers conferred by any of the following sections of this chapter shall be exercise-able in respect of—

(*a*) any *bustee* the total area of which, as comprised within the limits defined under section 335, is less than two *bighas*, or

(*b*) any masonry building existing in a *bustee* at the time when a standard plan is approved or alignments are prescribed under section 360 for such *bustee*, as the case may be.

Improvement of bustees.

Power to Corporation to require owner of *bustee* of area between ten *cottahs* and two *bighas* to carry out certain improvements

337. (*1*) Notwithstanding anything contained in section 336, the Corporation may, for sanitary reasons, require the owner of any *bustee* of which the total area as comprised within the limits defined under section 335 is more than ten *cottahs* but less than two *bighas*,—

(*a*) to open up and construct such passages, not exceeding twelve feet in width, between the huts, and to provide such surface drains and latrines for the use of the tenants of the *bustee*, as the Corporation may think necessary, and

(*b*) to remove the whole or any portion of a hut, provided that the owner of the hut shall be entitled to receive from the Municipal Fund such compensation calculated according to the estimated value of the structure removed, as the Corporation may determine.

(*2*) When the Corporation propose to issue a requisition in respect of any *bustee* under sub-section (*1*), they shall prepare a standard plan showing the proposed improvements, and may then, by written notice, call on the owner of the *bustee* to show cause why the *bustee* should not be improved within a date to be fixed in conformity with the said plan.

(*3*) The provisions of sections 345, 346, 347, 352, 355, 356 and 359 shall, with all necessary modifications, be deemed to apply in the case of every requisition issued under sub-section (*1*).

Power to Corporation to require preparation of standard plan by owner of *bustees*.

338. (*1*) The Corporation may at any time, if it appears to them that any *bustee*, for sanitary reasons, requires improvement, serve a written notice upon the owner of such *bustee* requiring him

(*Part V.—Chapter XXII.—Bustees.—Section 339.*)

to prepare and submit a plan of the *bustee*, to the scale of twenty-five feet to the inch, showing—

(*a*) the manner in which the *bustee* should be laid out, with the huts standing in regular lines and with a free passage, in front of and behind each line, of such width as may be necessary for proper ventilation and for scavenging,

(*b*) the drains for the general use of the tenants of the *bustee*,

(*c*) the means of lighting, common water-supply, bathing arrangements (if any) and common privy accommodation to be provided for the use of the tenants.

(*d*) the streets and passages which are to be maintained for the benefit of the tenants,

(*e*) the tanks, wells and low lands which are to be filled up and the tanks which are to be conserved, and

(*f*) any other proposed improvements:

Provided that when there are two or more owners of a *bustee* the Corporation may require them to prepare and submit a joint plan of the *bustee*.

(*2*) The streets referred to in clause (*d*) of sub-section (*1*) shall be not less than sixteen feet wide and ordinarily not more than two hundred feet apart, and the passages referred to in that clause shall be not less than twelve feet wide.

(*3*) If there is any masonry building within the limits of the *bustee*, the said plan shall be so prepared as clearly to distinguish such building and the land pertaining to it.

(*4*) The said plan—

(*i*) shall be considered by the Corporation and modified in such manner as may be required, and

(*ii*) shall, when approved by them, be deemed to be the standard plan of the *bustee*.

Preparation of standard plan by Corporation where owners disagree, etc.

339. (*1*) If, after the service of a notice under section 338 on the owners of any *bustee*, such owners—

(*a*) do not agree among themselves in the preparation of a plan as required by such notice, or

(*b*) for any reason prefer to have a plan prepared for them by the Corporation, or

(*c*) fail to comply within sixty days with such notice,

the Corporation shall cause the *bustee* to be inspected by two persons appointed in that behalf, one of whom shall be a medical officer of the Corporation or a person holding the diploma of Public Health or such other qualification as may be prescribed by the Corporation in this behalf, and the other an

(*Part V.—Chapter XXII.—Bustees.—Sections 340—343.*)

engineer, and the Corporation on receipt of their report shall cause a plan to be prepared to the scale and showing the particulars prescribed in the said section.

(*2*) When a plan has been prepared under sub-section (*1*), the Corporation shall fix a day for the hearing of objections (if any) made by or on behalf of the owners of the *bustee* and the owners of huts or masonry buildings therein,

and, after hearing such objections, may, in their discretion, approve such plan either with or without modifications.

(*3*) Every plan of a *bustee* approved under sub-section (*2*) shall be deemed to be the standard plan of the *bustee*.

(*4*) When the Corporation cause a plan to be prepared under sub-section (*1*), they may charge the said owners therefor at a rate not exceeding five rupees *per bigha*.

Suspension of building pending preparation of standard plan

340. When the owner of a *bustee* has been required under section 338 to prepare a plan, no new building which is a hut shall be erected and no hut shall be added to within the *bustee* until a plan has been prepared and approved under that section or under section 339.

Prohibition of building contrary to standard plan

341. When a standard plan has been approved for any *bustee* under section 338 or section 339, no new building which is a hut shall be erected and no hut shall be added to in such *bustee* unless the hut, or the portion to be added, as the case may be, occupies a site, or portion of a site, marked in the standard plan as the site for a hut.

Power to Corporation to require removal of hut not in conformity with standard plan

342. (*1*) When a standard plan has been approved for any *bustee* under section 338 or section 339, the Corporation may at any time, by written notice, require the owner of any hut in such *bustee*, which is not in conformity with the standard plan, to remove the whole or any portion of such hut.

(*2*) When a hut or portion of a hut has been removed in compliance with a requisition made under sub-section (*1*), the owner thereof shall be entitled to receive from the Municipal Fund such compensation calculated according to the estimated value of the structure removed, less the value of the materials, if the owner elects to take these, as the Corporation may determine.

Power to Corporation to require carrying out of other improvements in conformity with standard plan

343. (*1*) The Corporation may at any time, by written notice, require the owner of any *bustee* for which a standard plan has been prepared under section 338 or section 339—

(*a*) to construct the drains, privies, streets and passages, provide the means of lighting, water-supply and common bathing arrangements, and carry out the other improvements shown in such plan, so far as may be practicable having regard to the existing arrangement of the huts, and

(*b*) if any tank, well or low land is shown in such plan as to be conserved or filled up, to conserve or fill up such tank, well or low land.

(*Part V.—Chapter XXII.—Bustees.—Section 344.*)

(*2*) Until such notice is complied with, the Corporation may refuse to sanction the erection of a new building which is a hut or the making of any addition to any hut in the *bustee*.

Inspection, report and preparation of standard plan by registered medical practitioner and engineer, in cases requiring expedition

344. (*1*) If it appears to the Corporation that any *bustee*,—

(*a*) by reason of the manner in which the huts are crowded together, or

(*b*) for any other reason,

is in such an unhealthy condition that the procedure provided by the foregoing sections of this chapter would be too dilatory to meet the emergency,

they may, after giving notice to the owners of the *bustee*, cause the *bustee* to be inspected by two persons appointed in that behalf, one of whom shall be a medical officer of the Corporation or a person holding the diploma of Public Health or having such other qualifications as may be prescribed by the Corporation in this behalf, and the other an engineer. In appointing such persons the Corporation shall consider any proposals made by the owner of the *bustee* in this connection.

(*2*) The said persons shall forthwith—

(*a*) make, sign and submit a written report on the sanitary condition of the *bustee*, and

(*b*) annex to the report a plan approved by them as a proper standard plan of such *bustee*, and

(*c*) certify—

(*i*) which of the improvements required to bring the *bustee* into conformity with such plan should be taken in hand forthwith in consequence of the unhealthy condition of the *bustee*, and

(*ii*) which (if any) of such improvements should be deferred for action under the foregoing sections of this chapter.

(*3*) The improvements referred to in sub-clauses (*i*) and (*ii*) of sub-section (*2*) shall be specified in two separate schedules which shall be annexed to the report and called Schedule A and Schedule B, respectively.

(*4*) The said schedules shall clearly indicate—

(*a*) the huts which should wholly or in part be removed,

(*b*) the streets, passages and drains which should be constructed,

(*c*) the means of lighting, water-supply, common bathing arrangements and common privy accommodation to be provided for the use of the tenants,

(*Part V.—Chapter XXII.—Bustees.—Sections 345—347.*)

(*d*) the tanks, wells and low lands which should be filled up,

(*e*) any other improvements which the two persons appointed under sub-section (*1*) may consider necessary in order to remove or abate the unhealthy condition of the *bustee*, and

(*f*) any masonry building within the *bustee*, and any land pertaining to such building which it may be necessary to purchase or acquire for the purpose of making such streets or passages, or effecting any such improvement.

(*5*) A report (together with the schedules annexed thereto) made and signed under this section by any two persons appointed under sub-section (*1*) shall be sufficient evidence of the result of such inspection.

Approval by Corporation of standard plan and schedules annexed to such report

345. (Part V.—Chapter XXII.—Bustees.—Section 352.)

the purpose of making the improvements referred to in the said report.

(*2*) When any such resolution has been passed, the Corporation shall make a plan for the improvement of the said *bustee* or portion thereof, together with such estimates as may be necessary for a due understanding of the same, and may then purchase or acquire the said *bustee* or portion thereof, and such plan shall be deemed to be the standard plan of the *bustee*.

(*2*) In calculating the said proportions of one-fourth and one-third of any such area, no tank situated therein that has not been filled up shall be taken into account.

(*b*) for such proportion of each such plot being taken for streets, passages and open land as is specified in section 352.

(*2*) If a greater proportion of any one such plot than the proportion specified in section 352 is so taken, such standard plan shall indicate—

(*i*) the compensation which shall be payable to the owner of such plot, and

(*ii*) the persons who are liable to pay such compensation by reason of their benefiting by such greater proportion having been taken.

(*3*) If no person can equitably be called upon to pay such compensation, the same shall be paid by the Corporation.

(*4*) Any compensation payable under this section to the owner of any land in a *bustee* shall not be paid until such land has been brought into complete conformity with the standard plan.

359. (*1*) The owner of any land included in a *bustee* and bearing a separate number in the assessment-book may, at any time, whether a standard plan for the *bustee* has been prepared under this chapter or not, send a written notice to the Corporation that he intends to remove all the huts standing on such land.

Provided that the receipt of any such notice by the Corporation shall not be a bar to the approval by the Corporation, under this chapter, of a standard plan of such *bustee*.

(*2*) From the date of such notice no application shall be entertained for erecting on such land any new building which is a hut or adding to any hut standing thereon.

(*3*) Such owner shall, within six months after the date of such notice, or within such further time as the Corporation may from time to time allow, remove all huts standing on such land, and, if he does not do so, the notice shall be deemed to be cancelled.

360. (*1*) In any *bustee*, in respect of which a standard plan has not been prepared, or in any area in which it appears to the Corporation that huts are likely to be erected, the Corporation may, after hearing the objections, if any, of any owner of land in such *bustee*, prescribe alignments, not more than sixteen feet in width, for such private streets as they may think fit.

CHAPTER XXVI.

INSPECTION AND REGULATION OF PREMISES, AND OF FACTORIES, TRADES AND PLACES OF PUBLIC RESORT.

Premises generally.

Inspection and regulation of premises

380. Subject to the provisions of this Act, land and buildings shall respectively be inspected, cleansed, secured, repaired, drained, or otherwise regulated in accordance with the rules contained in Schedule XVIII.

Procedure in case of buildings deemed unfit for human habitation

381. (*1*) If, for any reason, any building or portion of a building intended for, or used as, a dwelling-place appears to the Corporation to be unfit for human habitation, they may require the owner or occupier of such building to make such alterations as they think necessary in the building in order to make it fit for human habitation, if they consider that this can be done; but whether they think it can be made fit for human habitation or not, they may, in either case, after giving the owner or occupier an opportunity of being heard, apply to a Magistrate to prohibit the further use of such building or portion thereof for such purpose;

and the Magistrate shall serve a notice on such owner or occupier so as to give him an opportunity of being heard in the Court, and, after such inquiry as he thinks fit to make, may, by written order, prohibit the further use thereof, or may pass such other order as he may deem just and proper

(*2*) When any such prohibition has been made, the Corporation may—

(*i*) inspect such building by day or by night, and

(*ii*) take such order as may be necessary to preclude the further use of the same, or of the portion specified in the prohibition, as a human habitation.

(*3*) When any such prohibition has been made, no owner or occupier of such building shall use, or suffer the same, or the portion specified in the prohibition, to be used for human habitation until—

(*a*) the Executive Officer certifies in writing that the causes rendering it unfit for human habitation have been removed to his satisfaction, or

(*b*) a Magistrate, by written order, withdraws the prohibition.

(*4*) The Corporation shall prepare and maintain at the Municipal office a list of buildings in respect of which the Magistrate has passed an order under sub-section (*1*), and such list shall contain such particulars as to the action taken by the Corporation or the owner in pursuance of such order or otherwise, as the Executive Officer shall think fit and shall be open to inspection by the public free of charge.

(Part V.—Chapter XXVI.—Inspection and regulation of premises, and of factories, trades and places of public resort.—Sections 382, 383.)

Power to Corporation to require demolition of, or execution of work on, building unfit for human habitation

382. (*1*) When a Magistrate has prohibited the use of a building for human habitation under section 381 and such prohibition has been in force for three months, the Corporation shall take into consideration the question of the demolition of such building,

and shall give notice of the time (being some time not less than one month after the service of the notice) and place at which such question will be considered to the owner and to the occupier (if any) of the building,

and the said owner and occupier shall be entitled to be heard when the question is so taken into consideration.

(*2*) If, upon such consideration, the Corporation are of opinion that the building has not been rendered fit for human habitation, and that the necessary steps are not being taken with all due diligence to render it so fit,

they shall cause a written notice to be served on the said owner and occupier and also to be put on some conspicuous part of such building, requiring such owner and occupier to demolish the building or any portion thereof, as the case may be, or to execute such work as in the opinion of the Corporation may be necessary to render the building fit for human habitation.

(*3*) If such owner or occupier undertakes to execute with due diligence the work necessary to render the building fit for human habitation, and the Corporation consider that it can be so rendered fit for human habitation,

the Corporation may postpone the operation of the said notice for such time as they think sufficient for the purpose of giving the said owner or occupier an opportunity of executing the necessary work.

Power to Corporation to call for statement of accommodation

383. (*1*) The owner of any building shall, within a period of a fortnight after receipt of a written notice from the Corporation requiring him to do so, submit to the Corporation a signed statement of the following particulars with respect to such building or any part thereof, namely,—

(ii) the total number of adults and the total number of children occupying each room used for sleeping.

Abatement of overcrowding in dwelling-house or dwelling place

384. (1) If it comes to the knowledge of the Corporation from a statement received under section 383, or after an inspection made under rule 1 of Schedule XVIII, or in any other way, that a dwelling-house, or a public building or hut which is used as a dwelling-place, or any room in any such house, public building or hut, is so overcrowded as to endanger the health of the inmates thereof, they may require the owner to abate such overcrowding in the manner specified in such requisition. After giving the owner an opportunity of being heard in regard to such requisition, the Corporation may direct him within such time as they may fix to take such measures as they think fit to abate such overcrowding. If the owner fails to take such measures, the Corporation may apply to the Magistrate to abate such overcrowding.

The Magistrate, after such inquiry as he thinks fit to make, may, by written order, require the owner of the building or room, within such time as the Magistrate may prescribe in the said order, to abate such overcrowding by reducing the number of lodgers, tenants or other inmates of the building or room, or may pass such other order as he may deem just and proper.

Every such order shall be binding and operative on the owner as well as on the occupier, and every occupier shall, on the written requisition of the Corporation informing him of the order, be bound to vacate the same within such time as may be specified in such requisition.

(*2*) The Corporation may refuse to give such permission, if they are of opinion that the establishment, alteration, enlargement or extension of such factory, workshop or workplace in the proposed position would be objectionable by reason of the density of the population in the neighbourhood thereof, or would be a nuisance to the inhabitants of the neighbourhood.

Premises not to be used for certain purposes without a license

386. (*1*) No person shall use or permit to be used any premises for any of the following purposes without or otherwise than in conformity with the terms of a license granted by the Corporation in this behalf, namely,—

(*2*) No objections to any such declaration shall be received after a period of one month from the publication of such notice.

(*3*) The Corporation shall consider all objections received within the said period, giving any person affected by the said notice an opportunity of being heard by them during such consideration, and may thereupon make a declaration in accordance with the notice published under sub-section (*1*), with such modifications (if any) as they may think fit, but not so as to extend its application.

(*4*) Every such declaration shall be published in the *Calcutta Gazette*, and in such other manner as the Corporation may determine, and shall take effect from the date of such publication in the *Calcutta Gazette*.

(*3*) If, upon such examination, it appears that sub-section (*1*) has been contravened by reason of anything contained in or proceeding from the said works, pipes or conduits, the expenses of such laying open and examination, and of any measure which the Corporation, in their discretion, may require to be adopted for the discontinuance of the cause of such contravention, shall be paid by the owner of the said works, pipes or conduits, or by the person who has the

(*iii*) if the market-value is specially high in consequence of the property being put to a use which is unlawful or contrary to public policy, that use shall be disregarded and the market-value shall be deemed to be the market-value of the land or building if put to ordinary uses;

(*iv*) if the market-value has been increased by means of any improvement made by the owner or his predecessor in interest within one year before the aforesaid declaration was published, such increase shall be disregarded, unless it be proved that the improvement was made *bonâ-fide* and not in contemplation of proceedings for the acquisition of the land or building being taken under the said Land Acquisition Act. (*3*) "Local license" means—

(*a*) a license the classification of which depends on the valuation of the place of business, and

(*b*) a license granted under Class IV, number 13, or Class V, number 32, or number 33, or Class VI, number 42, or number 43, or class VII, number 64, or number 69, or class VIII, number 80, in the table in rule 1.

(*Schedule VI.—Rules as to licenses for the exercise or carrying on of professions, trades and callings—Rules 3-7.*)

Personal license required for each separate profession, trade or calling

3. When any person carries on two or more professions, trades or callings which are separate or independent of one another and for each of which a personal license is required, he shall be liable to take out a personal license for each such profession, trade or calling:

Provided that, if, in the opinion of the Executive Officer, any such profession, trade or calling is auxiliary to the carrying on of one or more of such other professions, trades or callings, such person shall only be required to take out a license under the highest of the two or more classes in the table in rule 1 under which his liability accrues

Personal license for members of firms

4. When two or more persons carry on business jointly, they may take out a single license as a firm.

Provided that, if any of the partners of such firm exercises or carries on any separate profession, trade or calling on his own account or jointly with other partners, a separate license shall be taken out in respect of every such profession, trade or calling.

Local license required for each business

5. A separate local license shall be taken out in respect of the business carried on in each separate place of business:

Provided that—

(*a*) separate licenses shall not be required in respect of any business carried on in adjacent premises which form one place of business or in any yards, godowns or factories which are auxiliary to any place of business; and

(*b*) the amount of the valuation of such premises, yards, godowns or factories shall be included in the computation for determining the class under which the license shall be taken out.

Valuation of places of business not separately valued under Chapter X

6. When a place of business occupies only a portion of one set of premises and has not been separately valued under Chapter X, the valuation thereof for the purposes of these rules shall be the rate *per mensem* at which such place of business might, in the opinion of the Executive Officer, reasonably be expected to let.

When both personal and local license required.

7. When any person exercises or carries on a profession, trade or calling for which a personal license should under these rules be taken out, and is also the owner or occupier of a place of business for which a local license should be taken out, he shall, if the Corporation so direct, take out both a personal license and a local license:

Provided that, where the place of business is auxiliary to the exercise or carrying on of the profession, trade or calling, only one license shall be required, and such license shall be either personal or local as the Corporation may direct.

(Schedule VI.—Rules as to licenses for the exercise or carrying on of professions, trades and callings —Rules 8-12.)

shall present an application to the Corporation before the first day of September in the current year.

Power to Executive Officer to issue notices to take out licenses, etc

12. (*1*) If the Executive Officer considers—

(*a*) that any person who has not taken out a license in the next preceding year ought to take out a license, or

(*b*) that any person who has taken out a license for such year, but has not done so for the current year, ought to take out a license under a higher class, or to take out more than one license,

he may serve such person with a notice directing him to take out a license or licenses for the next preceding year or the current year, as the case may be, under such class or classes as may to the Executive Officer seem proper.

(Schedule VI.—Rules as to licenses for the exercise or carrying on of professions, trades and callings.—Rules 13-17.)

Provided that when such license under a higher class has been taken out, the amount paid in respect of the license in the lower class shall, unless such person is liable to take out both licenses, be refunded to him.

Executive Officer to prove liability when service of notice not proved

13. When any person is summoned for not taking out a license, and service of notice under rule 12, sub-rule (*1*), is not proved, it shall be incumbent on the Executive Officer to prove that the person so summoned is liable to take out a license, and to state the class under which he is so liable.

14. Any person dissatisfied with an order made under this schedule may appeal either—

(*a*) to a Bench consisting of not less than three Councillors or Aldermen to be elected by the Corporation; or

(*b*) to a Court of Small Causes having jurisdiction in the place in which the profession, trade or calling is alleged to be exercised or carried on:

Provided that no appeal shall lie under this rule unless the amount payable for the license, as assessed in accordance with the said notice, has been deposited with the Corporation:

Provided also that where an assessee has taken out a license for the next preceding year, the sum to be deposited under the first proviso to this rule shall not exceed the amount which he paid in such year.

[See sections 319, 330, 331, 363, 364 (10), 488, 494 and 495.]

Part I.—Building-sites.

Conditions as to use of building-sites.

1. No piece of land shall be used as a site for the erection of a building,—

(*1*) if the building is to abut on a street, unless the site is of such a shape that the face of the building can be made parallel to the line of the street, or as nearly parallel to the said line as the Corporation may consider practicable; and,

(*2*) if the site is within thirty feet of a tank, unless the owner takes, or satisfies the Corporation that he will take, such order as will prevent any risk of the drainage of the building passing into the tank; and,

(*3*) if the site is a filled-up tank, or has been filled up with, or used for depositing, rubbish, offensive matter or sewage, unless the Corporation have caused the site to be examined and granted a certificate to the effect that it is, from sanitary and engineering points of view, fit to be built upon; and,

(5) For the purposes of sub-rule (4), the opposite face of the house shall be deemed to be a vertical plane drawn through the most projecting portion of such face excluding any cornice or moulding not exceeding eighteen inches.

(*5*) For the purposes of this rule, the back of a building shall be deemed to be that face of the building which is furthest from any street at the side of which the building is situated :

Provided that, where a building is situated at the side of more than one street, the back of the building shall, unless the Corporation otherwise direct, be deemed to be that face of the building which is furthest from the widest of such streets.

there shall be between the buildings an open space extending along the entire length of such side and forming part of the side of the said domestic building.

Provided that attachment of any building to the adjacent building shall not be allowed (except with the permission of the Corporation) in areas declared for the purpose if either of the buildings is a dwelling-house.

(*2*) The minimum distance across such space from every part of the said domestic building to the boundary line of the land or building immediately opposite such part shall be—

(*a*) six feet, if there is a building next to such boundary line or within two feet of it, or

(*b*) four feet, if there is an open space of two feet or more on the other side of such boundary line:

Provided that where there is a public street by the side of the site which is less than six feet wide, the owner may, by giving to the Corporation free of charge such land as will make the street six feet wide, be exempted from leaving further side space under this rule,

(*3*) Notwithstanding anything contained in this rule, where a site adjacent to the site of a proposed building is not occupied by a masonry building situated within ten feet of the boundary line between the two sites and within twenty-four feet from the frontage of the street on which the two sites abut, the proposed building may, with the sanction of the Corporation, be erected along the said boundary line up to a depth of twenty-four feet from such street frontage, unless, in the opinion of the Corporation, there is any objection to any building which may be subsequently erected on the adjacent site being attached to the building so erected.

Grant of provisional permission to proceed with work in cases of urgency

93. (*1*) If, in any case of urgency arising from causes beyond his own control, any person desires to undertake without delay any of the works referred to in rule 92, he may send to the Corporation an application for provisional permission to proceed with the work.

(*2*) Such application shall contain an explanation of the urgency and a general description of the work proposed to be undertaken.

CALCUTTA IMPROVEMENT TRUST.

The accounts of the Calcutta Improvement Trust for the year 1921-22 having been audited by an Auditor appointed by Government, the following Abstract of Accounts is published in accordance with the provisions of section 136 of Bengal Act V of 1911.

T. EMERSON, *Chairman.*

CALCUTTA, *the 11th July 1923.*

CHAIRMAN,

Annual Accounts for the year ended 31st March 1922.

I beg to submit the Accounts for the year ended 31st March 1922.

CAPITAL ACCOUNT.

At the time of preparing the Budget Estimate for the year 1921-22, it was estimated that the deficit on Capital Account at 31st March 1921 would amount to Rs. 129·65 lakhs. This was on the understanding that the sanctioned loan of Rs 50 lakhs would be brought to account, but as it was not necessary to draw on this source of income the entire loan of Rs. 50 lakhs has been excluded from the Capital Receipts, which show a deficit of Rs. 167·78 lakhs, or Rs. 11 87 better than the estimate. This is accounted for by an increase in the receipts and decrease in the expenditure of, approximately, Rs. 6 lakhs, or in all Rs. 12 lakhs better during the months of January to March 1922.

RECEIPTS—The Receipts for the year ended 31st March 1922 amounted to Rs 33¾ lakhs (exclusive of Rs. 33 lakhs drawn against the previous year's Debenture loan of Rs. 50 lakhs) against an estimate of Rs. 54 lakhs The difference between the actuals and the estimates is arrived at as follows :—

1921-22

	Budget.	Actuals	Difference.
	Rs.	Rs.	Rs.
Fees under section 78 ...	3,00,000	4,18,800	+ 1 18,800

	Total	...	- 20,21,300

EXPENDITURE.—The total expenditure for the year was Rs. 105$\frac{9}{10}$ lakhs, or Rs. 23½ lakhs less than the Budget Estimate. The difference between the actuals and the estimates is arrived at as follows :—

RESOLUTION

Simla, the 5th July 1923.

No. 1533-Ec– In exercise of the powers conferred by section 96-B (*2*) of the Government of India Act, the Secretary of State for India in Council has been pleased to make the following rules regulating the grant of overseas pay to members of services or to holders of posts for which he has sanctioned such pay

2. The Secretary of State in Council has decided that these rules shall have effect from the 3rd January 1921, and that the principles laid down in the rules shall be applied retrospectively from the dates on which overseas pay came into force for the various services or posts concerned The object of the grant of retrospective effect is to place the grant of overseas pay on a uniform basis from its inception. An officer not entitled to overseas pay under these rules will not, however, be required to refund any amounts which he may have drawn in good faith.

3 It will be observed that under the rules an officer who has been promoted to an Imperial Service from a provincial or subordinate service or from an outside post and is of non-Asiatic domicile is entitled, subject to the proviso in rule 1 (*a*), to overseas pay from the date on which he became a member of the service. It has been decided that an officer who is admitted to an Imperial Service by promotion should become a member of that service in all respects and that there is no valid reason why he should be treated differently, in respect of overseas pay, from members of the service recruited from other sources This decision will not, however, supersede that embodied in clause (*1*) of the Home Department resolution No 1260, dated the 24th June 1920, because Provincial Civil Service officers on appointment to hold listed Indian Civil Service posts do not become members of the Indian Civil Service; they remain members of the Provincial Civil Service and it is considered that the pay fixed for them is a fair remuneration independently of overseas pay.

OVERSEAS PAY.

1. Overseas pay at the rate or rates sanctioned for a particular service or post may be drawn by the following classes of officers serving in such service or holding such post, namely·—

(*a*) any officer having at the date of his appointment to such service or post his domicile elsewhere than in Asia:

Provided that no such officer shall be entitled to this concession who, prior to such appointment, has for the purpose of his appointment to any office under the Government or of the conferment upon him by the Government of any scholarship, emoluments or other privilege, claimed or been deemed to be a native of India;

(b) any officer having at the date of his appointment his domicile in Asia, to whom this concession has been extended by any general or special order of the Secretary of State in Council.

2 For the purposes of these rules, the domicile of a person shall be determined in accordance with the provisions set out in the Schedule to these rules

Provided that a person who was born and has been educated exclusively in Asia, and has not resided out of Asia for a total period exceeding six months, shall be deemed to have his domicile in Asia

3. No officer who after his appointment to a service or post acquires a new domicile shall thereby lose his right to or become entitled to overseas pay.

4. If any question arises as to the domicile of any officer at the time of his appointment, the decision thereon of the Secretary of State in Council in the case of persons appointed by him, of the Governor General in Council in the case of persons appointed by him, or of the local Government in the case of persons appointed by them, shall be final.

THE SCHEDULE.

Provisions for the determination of Domicile

1. A person can have only one domicile

2 The domicile of origin of every person of legitimate birth is in the country in which at the time of his birth his father was domiciled, or, if he is a posthumous child, in the country in which his father was domiciled at the time of the father's death.

3. The domicile of origin of an illegitimate child is in the country in which at the time of his birth his mother was domiciled

4. The domicile of origin prevails until a new domicile has been acquired, and a new domicile continues until the former domicile has been resumed or another has been acquired

5.—(1) A person acquires a new domicile by taking up his fixed habitation in a country which is not that of his domicile of origin.

(2) Any person may, if the law of any country so provides, and subject to any such provisions, acquire a domicile in that country by making, in accordance with the said provisions, a declaration of his desire to acquire such domicile.

Explanation 1—A person is not to be considered as having taken his fixed habitation in a country merely by reason of his residing there in His Majesty's civil or military service or in the exercise of any profession or calling.

Explanation 2.—A person does not acquire a new domicile in any country merely by reason of residing as part of the family or as a servant of any ambassador, consul, or other representative of the Government of another country.

6. The domicile of a minor follows the domicile of the parent from whom he derives his domicile of origin:

Provided that the domicile of a minor does not change with that of his parent if the minor is married or holds any office or employment in the service of His Majesty or has set up with the consent of the parent in any distinct business.

7. After marriage a woman acquires the domicile of her husband if she had not the same domicile before and her domicile during the marriage follows the domicile of her husband:

Provided that if the husband and wife are separated by the order of a competent court or if the husband is undergoing a sentence of transportation, the wife becomes capable of acquiring an independent domicile.

8. Save as otherwise provided above a person cannot during minority acquire a new domicile.

9. An insane person cannot acquire a new domicile in any other way than by his domicile following the domicile of another person.

Ordered that the Resolution be published in the *Gazette of India*.

RESOLUTION.

Simla, the 10th July 1923

TARIFFS.

No. 3748.—On February the 16th, 1923, the following resolution was adopted by the Legislative Assembly :—

" That this Assembly recommends to the Governor General in Council—

(*a*) that he accepts in principle the proposition that the fiscal policy of the Government of India may legitimately be directed towards fostering the development of industries in India,

(*b*) that in the application of the above principle of protection, regard must be had to the financial needs of the country and to the present dependence of the Government of India on import, export and excise duties for a large part of its revenue,

(*c*) that the principle should be applied with discrimination, with due regard to the well-being of the community and to the safeguards suggested in paragraph 97 of the report of the Indian Fiscal Commission,

(*d*) that in order that effect may be given to these recommendations, a Tariff Board should be constituted for a period not exceeding one year in the first instance, that such Tariff Board should be purely an investigating and advisory body and should consist of not more than three members, one of whom should be a Government official, but with power, subject to the approval of the Government of India, to co-opt other members for particular inquiries."

2. The Government of India have decided to appoint a Tariff Board, for a period not exceeding one year in the first instance, to carry out the investigations resulting from the acceptance of that resolution and to make recommendations thereon. The following gentlemen have agreed to serve on the Board —

President

G. RAINY, Esquire, C.S.I., C.I.E., I.C.S.

Members

The Hon'ble Mr. V. G. KALE, Professor of Economics, Fergusson College, Poona.
P. P. GINWALA, Esquire, M.L.A., Bar.-at-Law.

Rai Bahadur S. N. Banerji, Assistant Secretary, Commerce Department, has been appointed Secretary to the Board.

3. The Government of India will select the industries to be taken up for investigation and determine the order of the inquiry and it will be the duty of the Tariff Board, after such examination as it thinks necessary, to make recommendations regarding the protection (if any) to be extended to those industries and the nature and extent of the protection. Firms or persons (other than those referred to in the next paragraph) desiring that the industries in which they are interested should be investigated by the Tariff Board should apply to the Secretary to the Government of India in the Commerce Department. With their applications they should send up a full statement of the reasons why they consider that protection should be extended to the industry.

4. The Board will assemble immediately at Simla. As recommended by the Fiscal Commission in paragraph 107 of its Report, the Board will examine first the question of extending protection to the manufacture of steel in India. In considering this question, the Board will take into account the effect of any recommendations it may make on industries dependent on the use of steel, and in particular, it will consider how its recommendations will affect the industries referred to in paragraph 9 of the Report of the Railway Industries Committee, and whether those industries should be accorded protection. Firms or persons interested in the steel industry or the industries dependent on the use of steel, who desire that their views should be considered by the Tariff Board, should address their representations to the Secretary to the Board.

The headquarters of the Board will be with the Government of India, but it will visit from time to time commercial and industrial centres in India for the purpose of the investigations which it may be required to undertake While the steel industry is under examination, the office of the Board will be located temporarily at Calcutta. For the investigation of other industries, it may be necessary to transfer the office from time to time to other convenient centres.

5 The Government of India trust that Local Governments and Administrations will afford the Board all the assistance which it may require and will comply with any request for information which may be addressed to them by it

Order —Ordered that a copy of the above resolution be communicated to all Local Governments and Administrations, the Director General of Commercial Intelligence, and to the Secretary of the Indian Tariff Board.

Ordered also that it be published in the *Gazette of India*

Letter No. S. 1830, dated the 5th July, 1923, from the Chairman of the Corporation of Calcutta.

We realise that the Bill in no way attempts to provide a comprehensive remedy for the evils of immoral traffic and we have confined ourselves to an endeavour to effect some control in three main directions : firstly to diminish the supply of prostitutes by striking at the procurers and the men who live on the earnings of prostitution ; secondly to provide for the removal from brothels of minor girls under 16 and the punishment for detention of any girl or woman in a brothel against her will ; and thirdly to protect as far as possible students and other youths from temptation by penalising solicitation. We are fully conscious that the Bill in itself will go a very short way if it is not supplemented by a persistent vigorous organisation for rescue work and the proper aftercare of girls and women removed from brothels, and we feel that though Government may give valuable assistance, this is work that must in the main depend upon private effort. Some of us have great doubt whether the risks it is necessary to take in the endeavour to protect youths

from solicitation do not outweigh the benefits of such a course but the majority are of opinion that the existing evil is sufficiently grave to warrant an attempt being made to suppress it and feel that it is our duty to place before the Council provisions to this end.

2. The more important changes we have made in the Bill are as follows :—

Long title, preamble and clause 1.—We consider that the extent of the Bill should be the same as the extent of the Bengal Children Act except that the operation of the present Act should not extend to the Municipality of Howrah as such extension would involve the setting up of a separate machinery to work it. We have made a drafting amendment accordingly in the long title, extent clause and the definitions.

Clause 2, sub-clause (1).—The words "or disorderly house" have been omitted from the definition as unnecessary and misleading.

Clause 2, new sub-clause (3).—It is necessary that a definition of the words "public place" and "street" should be inserted so as to bring the wording of this Act into line with the Calcutta Police Act A sub-clause has been inserted to this effect.

Clauses 3 and 4.—We have transferred clause 3 to the end of the Bill so as to make the decision on this clause subsequent to that on clause 4.

Clause 4.—As already stated the majority of us consider that it is our duty to propose for the acceptance of the Council provisions for dealing with the evils of solicitation. We are all agreed that clause 4 as originally drawn was too wide and involved considerable dangers, we have defined more exactly the offence to be penalised but we have left the clause so as to include solicitation from balconies and verandahs. We have provided that the powers of arrest shall be exercised only by selected officers nominated by the Commissioner of Police and have specifically included sergeants among the officers who may be so nominated as there appears to be some doubt whether they are above or below the rank of Sub-Inspector The majority of us feel strongly that if an attempt is to be made to cope with the evil no further weakening of the section is possible, if the powers of arrest without complaint are not to be entrusted to police officers the only possible alternative is to retain the present law and abandon the attempt to bring solicitation under further control. The minority are prepared to accept this alternative rather than run the risks they consider are involved in the grant of those powers of arrest.

Clause 5.—Agreeing with the Commissioner of Police we consider that the powers conferred by this clause should not be exercised by a Deputy Commissioner of Police, but that the Commissioner of Police should be empowered to refer any case to a Deputy Commissioner of Police for inquiry. We also consider that the order for the discontinuance of a brothel should be made not merely as a personal order against the owner, lessor, manager or occupier but as a general order against the public, the notice served on the owner, occupier or lessor being to the effect that the house, room or place which has been used as a brothel or disorderly house or for the purpose of a business of common prostitute shall not again be so used We are impressed by the fact that otherwise the owners and occupiers may with the greatest ease evade the provisions of this Act. We have safeguarded an incoming proprietor or tenant by inserting a provision to the effect that the Commissioner of Police shall keep a list of all houses, rooms or places in respect of which an order has been made under this clause for the discontinuance of the use of such houses, rooms or places as brothels or for any of the other purposes specified in the clause. We have therefore deleted the original sub-clause (7) and amalgamated it with sub-clause (6). At the same time we have increased the time allowed under sub-clause (2) to enable the owner or lessor, or manager or occupier, on whom the order is served, to comply with the order.

The original *clauses 6, 7 and 8* deal with the rescue of girls from brothels and disorderly houses. We are unanimously in favour of making provision for such rescue by giving adequate powers of entry to the police in order that they may be able to search for girls who are placed in this position, but the proposal that the girl after her rescue may only be looked after until she attains the age of sixteen years does not commend itself to us. We consider

that if the rescue is to be effective and the girl trained to earn a respectable livelihood she must not be cast adrift so quickly and power must be taken to continue her training, if necessary, to the age of eighteen. We have, therefore, provided that while the procedure of the Bengal Children Act shall apply, the court shall have power to direct detention until the age of eighteen years and in clause 15 we have taken power to modify the provisions of the Bengal Children Act.

Clause 7.—We consider that a girl who has been removed from a brothel or disorderly house should be kept in a suitable place other than a police-station or jail not only until she is brought before a court but until the court decides to place her in proper custody or decides to dismiss the case. We have amended the clause accordingly.

The original *clause 8* is now contained in part in the revised *clause 15* which deals with the subsequent treatment of girls on the lines already indicated.

We have considered carefully the many suggestions that have been made for checking the evil of prostitution by taking steps against procurers. All of us consider that this is an essential part of the scheme of the Bill and are strongly in favour of making the provisions against procurers and those who live on the earnings of prostitution as severe as is possible. Judicial corporal punishment has in other countries been found the most effective deterrent in the case of these degraded dregs of humanity and in the interests of their unfortunate victims we recommend that this punishment shall be authorised by law. While it is right to deprive the offender of his profits by the infliction of fines we consider that in no case should fine be the only penalty; the profits of the trade would prevent a fine by itself being deterrent.

Clauses 9, 10, 11 and 12—which we have inserted in the Bill are based on the Burma Act, but we have tried to make these clauses conform to the above principle and to stop possible loopholes which might be found to exist in the wording of the Burma Act.

Clause 13.—We consider that offences under clauses 9, 10, 11 and 12 should be triable only by a Presidency Magistrate or a Magistrate of the first class.

3. The Bill was published in English in the *Calcutta Gazette* of the 14th February, 1923.

4. We do not consider that the Bill has been so altered as to require republication.

5. We recommend that the Bill, as amended by us, be passed.

2. The more important changes are as follows :—

1. *Long title and Preamble.*—We have taken into consideration the fact that difficulties have arisen in the interpretation of the words 'held under the custom of *utbandi*' and we consider that the wording should be made explicit so as to cover all *utbandi* lands without question. We have made an amendment to give effect to this recommendation.

Clause 2 (i) Proposed section 180A, sub-section (1).—We have considered very carefully the opinions on the draft Bill as circulated by the Government and we think that the objections to the new section 180 B and to 180A (2)(b) will best be met by restricting the power of making applications for fixing a uniform annual money rent to persons who are, or who but for the operation of section 180 in respect of lands held under the custom of *utbandi* would have been, settled raiyats of the village This restriction will ensure that casual tenants will not be able to avail themselves of the provisions of the Bill. We have accordingly suggested an amendment to this sub-section. An amendment consequential on the recommendation recorded in paragraph 1 has also been made in this sub-section and throughout the remaining portions of the Bill

(ii) Proposed section 180A, sub-section (2).—The words "in the same village" have been inserted in clauses (a) and (b) so as to make the intention clear, and a provision has been made that in the case of lands in which the raiyat has not acquired a right of occupancy the application shall include not only the lands which he himself has held during the past six years but also those lands which have been cultivated during that period by persons whose heir he is and who have died.

(iii) Proposed section 180A, new sub-section (2a).—We consider that, with a view to simplify the procedure and to diminish the cost of proceedings, the landlord should be able to put in a single application for conversion in respect of all the lands held in *utbandi* by tenants under him in the same village, while one or more tenants should be able to put in a single application for conversion in respect of the lands held in *utbandi* by them under the same landlord and in the same village.

(iv) Proposed section 180A, sub-section (5).—We consider that steps should be taken to protect permanent superior landlords under whom there are temporary tenure-holders or *ijaradars*, who might make use of the provisions of the Act to the prejudice of the permanent superior landlords by the taking of premium on conversion. We consider that the best way of protecting permanent superior landlords in this matter is to make it obligatory on the officer who receives the application to send notice in cases where the immediate landlord of the raiyat has a mere temporary interest to the superior landlord in order that the latter may contest the application before the determining officer or come to an amicable private arrangement with the immediate landlord of the raiyat in regard to the apportionment of the premium.

(v) Proposed section 180A, sub-sections (6) and (7).—Consequential and drafting alterations have been made in these sub-sections. While considering proposed sub-section (7) we discussed the question as to whether a premium should be taken in every case of conversion of *utbandi* lands in which the raiyat has not acquired an occupancy right. We consider that the taking of a premium in all such cases is justified. It represents a payment for new rights conferred.

(*vi*) *Proposed section 180A, sub-section (8).*—We consider that the basis of the calculation of the sum to be determined as uniform annual money rent should be the average of the amount that was actually paid or payable as rent for the land during the previous six years and that this average rent should not be made merely a factor of equal weight with others for the guidance of the determining officer. We have, therefore, agreed to delete clause (*b*) of this proposed sub-section and have amended the main sub-section to the above effect. As to the subsidiary points which the determining officer should take into consideration in dealing with special cases, objections were put forward by various sides in regard to clause (*a*) and clause (*c*) of this sub-section, but these were withdrawn on compromise, as the various clauses go to balance one another. Drafting amendments have also been made in clause (*d*)

In our opinion the charges incurred by the landlord on account of drainage should also be considered and we have amended clause (*e*) accordingly and have also simplified the drafting of this clause.

(*vii*) *Proposed section 180A, sub-section (9)*—In connection with this proposed sub-section the question as to whether there should be a fixed rate of premium or a varying rate of premium was discussed. A varying rate might meet local conditions and cases where rents are unduly high or unduly low. We, however, on consideration of all the factors in the case have recommended the retention of the proposal in the Bill that there should be a fixed rate of premium in all cases. It is of special importance that the landlord or the tenant, as the case may be, should have a fairly clear idea of what he is asking for or what he is faced with at the time when he makes the application for conversion or receives notice of such application. Where both parties know mathematically what their rights are in the absence of special circumstances, an amicable settlement is far more likely than where there is inevitably a point to be decided by a third party. We have retained the proposal in the Bill that the amount of the premium should be three years' rent.

We consider that the proviso to this sub-section should be deleted. It is better for both the landlord and the tenant that a premium should be paid in regard to the lands in which the tenant has not acquired occupancy rights than that the tenant and his successors should be saddled with an increase of rent in lieu of payment of premium.

(*viii*) *Proposed section 180A, sub-section (10).*—The question of costs was considered in connection with this sub-section, but we consider that it is desirable that the parties should bear their own costs. This will be the case in the absence of a definite provision in the Bill to the contrary. This sub-section has, therefore, been left unaltered.

(*ix*) *Proposed section 180A, sub-section (11).*—We agree to the system of payment of the premium by instalments and consider that the principle of payment by not more than three instalments, as suggested in the Bill, is suitable.

(*x*) We have adopted the remaining sub-sections of the proposed section 180A, and also the proposed section 180B with minor drafting modifications. We consider that the objections in the opinions received to this proposed section are met satisfactorily by the restriction of the operation of the Bill to lands held by settled raiyats or by persons who would have been settled raiyats but for the operation of the *utbandi* provisions of the Tenancy Act.

3. In our deliberations we have throughout kept in view the need for maintaining the general working scheme of the Bill as a basis of compromise and this has necessarily involved give and take on either side in regard to matters of detail in the interest of the success of the measure as a whole.

4. The Bill was published in English in the *Calcutta Gazette* of the 27th June, 1923.

5. We do not consider that the Bill has been so altered as to require republication.

6. We recommend that the Bill, as amended by us, be passed.

NOTE—* Signed subject to the note of dissent annexed.
† Signed subject to note of dissent, if any.

Note of Dissent by the Hon'ble Mr. P. C. Mitter.

I sign this report subject to one suggestion. In my opinion multiplicity of legal proceedings should be avoided. I say this as much in the interest of the landlord as of the tenant and if I may say so, more in the interest of the tenant than of the landlord because the tenant has usually a smaller purse. The proposal in the Bill will mean a fresh suit on payment of court fees.

The proposal in sub-section (*12*) of the proposed new section 180A involves a fresh suit for the recovery of the *salami*. This means that the plaintiff will have to pay court fees which will be ultimately recoverable from the tenant. This will also mean that both parties will have to incur costs of litigation. Litigation necessarily results in harassment to both the parties. I would therefore suggest that the premium or the instalment may be recovered by the landlord making a requisition to the Collector for the recovery of the arrear of the same in the manner set forth in sub-sections (*3*) and (*4*) of section 158A, and the provisions of sub-sections (*5*) to (*9*) of that section shall apply to the recovery of the said arrear by the Collector as if it were an arrear of rent recoverable by him under the provisions of that section. In my view, if my suggestion be accepted both the landlord and the tenant will be benefited.

Note of Dissent by Maulvi Ekramul Huq, B.L., M.L.C.

I do not agree to the payment of any premium by the *utbandi* tenant for which provision is made in section 180A, sub-sections (7) and (9). But for section 180 of the Bengal Tenancy Act such tenants would have got the right of occupancy long ago. [illegible] the amended Act does [illegible] right whatsoever but simply tries in a feeble manner to undo a wrong done so long.

Note of Dissent by Raja Reshee Case Law, C.I.E., M.L.C.

I sign subject to the reservation that the premium should be paid in one instalment and not three, as otherwise it will involve the landlord to unnecessary litigation for its recovery.

THE BENGAL TENANCY (UTBANDI AMENDMENT) BILL, 1923;

(as amended by the Select Committee)

BILL

to supplement and amend the Bengal Tenancy Act, 1885, in order to provide means whereby a uniform annual money rent may be determined for utbandi lands and to make further provision in respect of such lands

Preamble.

WHEREAS it is expedient to supplement and amend the Bengal Tenancy Act, 1885, in order to provide means whereby a uniform annual money-rent may be determined for land held under the custom of *utbandi* or under any form of tenancy locally known as *utbandi*, and to make such other provisions as hereinafter appear in respect of lands for which a uniform annual money rent has been so determined; VIII of 1885

And whereas the previous sanction of the Governor General under sub-section (3) of section 80A of the Government of India Act has been obtained to the passing of this Act; 5 & 6 Geo. V, c 61, 6 & 7 Geo V, c 37, 9 & 10 Geo V, c 101

It is hereby enacted as follows:—

Short title and extent

1. (1) This Act may be called the Bengal Tenancy (Utbandi Amendment) Act, 1923.

2. After section 180 of the Bengal Tenancy Act, 1885, the following sections shall be inserted, namely:—

"180A. (1) Notwithstanding anything contained in section 180, when a raiyat who is or who but for the operation of section 180 in respect of land held under the custom of *utbandi* would have been, a settled raiyat of the village, holds or has held under the custom of *utbandi*, or under any form of tenancy locally known as *utbandi* land, (hereinafter referred to as *utbandi* land), either the landlord or the raiyat may apply to have a uniform annual money rent determined for the land.

Fixing of uniform annual money rent in respect of *utbandi* lands

(2) The application shall include at the discretion of the applicant either—

(a) all utbandi lands held in the same village by the same raiyat under the same landlord in which the raiyat has acquired a right of occupancy whether under the provisions of section 180 or otherwise, or

(*Clause 2.*)

(*b*) all the lands held in the same village under the same landlord by the raiyat wh[redacted] or any [redacted] person whose heir he is, has cultivated as *utbandi* land at any time during the preceding period of six years if he or the said deceased person is the last person to have cultivated the land and has or had not acquired occupancy rights therein, or

(*c*) both.

(*2a*) Subject to the provisions of sub-section (*2*), a single application may be made by a landlord in respect of lands held as *utbandi* lands in the same village by one or more raiyats under him and a joint application may be made by two or more raiyats in respect of lands held by them as *utbandi* lands in the same village under the same landlord.

(*6*) If the application is made in respect of lands in which the raiyat has not acquired occupancy rights, the officer may reject it in whole or in part in respect of such lands, if he is satisfied in view of all the circumstances of the case that it is unreasonable to grant it:

Provided that a refusal shall be no bar to proceedings being again taken under this section after five years from the date of refusal if in the opinion of the officer who then received the application the circumstances have in the meantime changed.

(*Clause 2.*)

(7) If the application is not wholly rejected, the officer shall then determine the sum to be paid as a uniform annual money rent, and also [illegible] raiyat has not acquired occupancy rights, a premium to be paid to the landlord, and he shall order that the raiyat shall, in lieu of paying the rent for the land as *utbandi* land, pay the sum so determined and the premium, if any.

(8) In making the determination of the sum to be paid as rent, the officer shall calculate the average of the amount that was actually paid or payable as rent for the land during the previous six years and shall ordinarily declare the same as the sum to be paid as rent:

Provided that the officer may also take into conderation—

(*a*) the average money rent payable by occupancy raiyats for land of a similar description and with similar advantages in the vicinity;

(*g*) any sum agreed to by the parties to be paid as money rent:

Provided that the officer shall in no case determine a rent which is unfair or inequitable.

(*Clause 2.*)

(*Proviso omitted.*)

(*10*) The order shall be in writing, shall state the grounds on which it is made, and shall, in the absence of any special reasons to the contrary recorded in writing, take effect from the beginning of the agricultural year next after the date on which it is made.

(*11*) The officer may, on the application of the raiyat, order that the premium shall be paid by instalments not exceeding three in number, that the first instalment shall be paid at the beginning of the agricultural year in which the rent settled under sub-section (*7*) takes effect and that one of the remaining instalments shall be paid at the beginning of each of the succeeding agricultural years until the premium is paid in full.

NOTIFICATION.

No. 1846L., dated Calcutta, the 23rd July, 1923.—The following Report of the Select Committee on the St. Thomas' School Bill, 1923, (with the Bill, as amended by the Committee), is hereby published for general information.

REPORT OF THE SELECT COMMITTEE ON THE ST. THOMAS SCHOOL BILL, 1923.

We, the undersigned members of the Select Committee, to which the Bill to provide for the management and future location of St. Thomas' School in Calcutta and for the making over of St. Thomas' Church in Calcutta to certain ecclesiastical authorities was referred, have considered the Bill and have the honour to submit this our Report with the Bill, as amended by us, annexed hereto. In reprinting the Bill all changes made by us have, so far as possible, been underlined.

2. We have made some changes in the Title and Preamble to bring the wording into line with the actual facts.

We consider that membership of the Governing Body of St. Thomas' School should be widened and have amended clause 2 accordingly.

In so doing we have transferred from original sub-clause (*d*) to separate sub-clauses, the references to the representative of the Bengal Chamber of Commerce and the representative of the Anglo-Indian and Domiciled European Association of Bengal, so as to make it possible for those bodies to nominate either a member of the Church of England or a member of some other denomination.

We have also added to the body of Governors a European or Anglo-Indian Commissioner of the Corporation. We have also given the Governors a free choice in regard to the persons who shall be co-opted under sub-clause (*2*).

Clauses 11 and 12.—We have considered these clauses in conjunction with clause 2 and consider that they should stand as drafted. In Bengal, whatever the denomination of a school may be, there is under the rules for grants-in-aid to European schools no restriction on religious teaching in that school being imparted to all boarders according to the principles of a particular denomination, while in the case of day-boys a conscience clause is an obligatory condition of a grant-in-aid from the Government. The application of those rules is specially safeguarded by clause 12, and this will ensure that the St. Thomas' School is conducted in this matter on the same general principle as governs the conduct of other European schools in Bengal.

Clause 13.—We have considered very carefully the question of the amount of land that should be made over by the Governors to St. Thomas' Church, and we are of opinion that the area which it is proposed to make over is suitable. A new proposal has been made to increase that area by nine cottahs, but in our opinion this is not justified in view of the financial difficulties of the school.

We consider that the total area of two bighas, as set out in this clause will be sufficient to provide a suitable compound for the Church and, as the Free School site may be disposed of in one or more lots, and as the general lay-out may differ according to the manner of disposal, it is difficult at the present moment to fix the exact boundaries of the land that will be given to the Church. We have, therefore, confined our specification of that land to a

declaration as to the total area of the Church and its compound, and we have provided that the Local Government shall approve the actual delineation before the making over of the compound land to the ecclesiastical authorities takes place.

[redacted] made a drafting amendment so as to make it clear [redacted] more than one provident fund can, if necessary, be established for the teachers, officers and servants of the school

We have amended the First Schedule so as to exclude from it merely the land on which the actual building of St. Thomas' Church stands.

We have also omitted the Third Schedule These changes are consequential on the amendments made in clause 13.

3. The Bill was published in English in the *Calcutta Gazette* of the 27th June, 1923.

4. We do not consider that the Bill has been so altered as to require re-publication.

5. We recommend that the Bill, as amended by us, be passed

2. On the Committee assembling, the Hon'ble the Member in charge informed the other members that the Corporation of Calcutta had asked for further time to consider the Bill. If this had been granted, it would have been impossible to place the Bill again before the present Council. Government had however considered very carefully the question as to whether the [redacted]rsial and urgent clauses. On the whole, he was [redacted]inion that it was not desirable to pass the Bill in its original form through the Council during the August session Sufficient time was not available for the full consideration of certain controversial points which had been raised in various opinions, received in connection with the Bill. Moreover, the Corporation wished to propose changes in other sections of the Act, which were not touched by the Bill. He was prepared to give them time to mature their proposals with the object of legislating next year. He asked the Select Committee to recommend, therefore, that only those portions of the Bill which are of a really emergent nature be placed before the Legislative Council at the consideration stage. The two points which require immediate settlement are the amendment of the wording of section 54, the interpretation of which is in dispute between the Corporation and the Improvement Trust, and the raising of the rate of interest in sections 78 and 79 of the Act from four to six per cent.

On consideration of the position we have accepted the proposal of the Hon'ble the Member in charge that the Council be asked to proceed only with the abovementioned portions of the Bill

We have discussed the proposed amendment of section 54, and it has been announced by the Chairman of the Calcutta Corporation and the Chairman of the Improvement Trust that an equitable agreement has been come to in regard to the question of compensation for lands and buildings of the Corporation taken over by the Trust for the purposes of an improvement scheme. We are agreed that the details of the settlement of the dispute should be embodied in the Act and have made an amendment in section 54 accordingly. This amendment carries out the proposals made in the original Bill in sub-clause (*1*) of clause 15 and in sub-clause (*3*) of that clause, but it has also been agreed that the determining factor in regard to the question of payment of compensation by the Board to the Corporation in respect of lands taken over under section 54 should be the question whether the land taken over is going to be returned to the Corporation in accordance with the provisions of section 65 when the improvement scheme has been completed. If the land is so returned—in other words, forms an integral and permanent part of the scheme—the Corporation will be compensated for the temporary loss of it by its improved value on the completion of the improvement scheme. If it is not so returned, but is sold by the Trustees for recoupment purposes, compensation should be payable to the extent of the market value of the land as at the date of declaration made under section 6 of the Land Acquisition Act in respect of other lands scheduled for acquisition within the scheme Compensation should be payable in all cases for buildings belonging to the Corporation and taken over by the Board

We have also discussed the question of the amendment of sections 78 and 79 of the Act in regard to the rate of interest payable under those sections. The proposal to raise the rate to six per cent. appears in clause 21 of the Bill, that is to say, in clause (*ii*) of sub-section (*5*) of the proposed new section 78, and in sub-section (*8*) of the said section and also in the amendment to section 79 proposed in clause 22.

With one dissentient we consider that the raising of the rate of interest to six per cent. is justified, but we consider that in cases where the rate has already been fixed in accordance with the Act and where the agreement under the Act has already been executed, or is executed within two months after the coming into force of the increased rate, the old rate of four per cent. should be applied. A modified proposal to this effect is embodied in clause 3 of the revised Bill.

We recommend that the revised Bill as attached to this Report be taken into consideration and passed as amended by us, the Bill in its original form being not considered further. The amendments suggested in the clauses

dealt with are on matters of working and, as those clauses have already been laid before the public, we do not consider that the Bill has been so altered as to require republication.

3. The Bill was published in English in the *Calcutta Gazette* of the 21st March, 1923.

* Signed subject to the note of dissent annexed.

Note of Dissent by Babu Amulya Dhon Addy, M.L.C.

The first proviso [redacted] clause 7 should be omitted on the following grounds :—

(1) When wards 19 to 25 of the Calcutta Municipality were added to the town of Calcutta, no concession was shown to the rate-payers of the said added area. The same consolidated rate has been levied on them since 1889 as that on the rate-payers of the town proper. I do therefore fail to understand as to why the total amount of rates on lands and buildings in Manicktala, Cossipore-Chitpur and Garden Reach should not be increased during the year 1924-25 and as to why the Corporation of Calcutta should be authorised to fix a lower rate on the annual valuation of the newly added area than that in the town of Calcutta during the years 1925-26 to 1928-29, specially as the annual valuation of holding in the newly added area is, in the opinion of the Assessor of the Calcutta Corporation, very low.

(2) At present, the owners and occupiers of small holdings in the newly added area are assessed more heavily than those of big holdings, for in Cossipore-Chitpur the latrine-fee on holdings up to an annual valuation of Rs. 100 (one hundred rupees) is at the rate of 11 per cent. (eleven per cent.) while on holdings of the valuation of Rs. 400 (four hundred rupees) and upwards it is at the rate of 5 per cent. (five per cent.) subject to a maximum of Rs. 480 (four hundred and eighty rupees) per annum In Manicktala, as will appear from the Report of the Government Boundary Committee, the aggregate rate on holdings up to an annual valuation of Rs. 100 (rupees one hundred) is 28·2 per cent (twenty-eight point two per cent.) while that on holdings of the annual valuation of Rs 3,000 (rupees three thousand) and upwards is 19·5 per cent. (nineteen point five per cent). It is therefore thus desirable that all rate-payers should be similarly taxed as in Calcutta. The municipal rates on the poor should not in any way be higher than those on the rich as in the newly added area.

(3) As will appear from the proceedings of the meeting of the Calcutta Corporation held on the 9th January, 1923, that they shall have to incur a capital expenditure of Rs. 90,00,000 (rupees ninety lakhs) for the improvement of the drainage, water-supply and lighting of Cossipore-Chitpur and Manicktala. They shall have certainly to incur not less than Rs. 20,00,000 (rupees twenty lakhs) for similar improvements in Garden Reach. Is it not therefore desirable that the rate-payers of the newly added area should be called upon to pay the same rate as those of the town of Calcutta to pay at least the interest of the loan to be raised for the execution of the said works, specially as the owners of holdings in the newly added area shall not have to pay an additional stamp duty at the rate of 2 per cent (two per cent.) on instruments of sale of immovable property as in the case of the town of Calcutta under section 82 of the Calcutta improvement Act?

(4) The sanitary condition of the newly added area, specially Manicktala, is not a satisfactory one [redacted] under section 90 of the new Calcutta Municipal Act, the Corporation shall have to spend annually not less than three lakhs of rupees (R[redacted]) for the newly added area [redacted] of original improvement [redacted] year and as the new Corporation will consist of thirteen ward Commissioners elected by the rate-payers of the newly added area, there is not the least doubt that the Corporation shall have to provide substantial amounts from the very commencement of the new Act for the improvement of the said area

(5) In the very first year of the commencement of the Act, a very substantial amount is likely to be entered in the budget for the improvement of the newly added area as out of twenty-one members of the Budget Special Committee, including the Chairman, eight members will be elected by the Commissioners of the newly added area

(6) Undue favour appears to have been shown to the rate-payers of the newly added area though for one year as the town of Calcutta, including the area added in 1889, paying a revenue of one crore and fifty-eight lakhs of rupees in 1921-22 shall have only twelve representatives in the Budget Special Committee excluding the Chairman thereof, while the rate-payers of the newly added area paying an aggregate revenue of only Rs 10,72,000 (rupees ten lakhs and seventy-two thousand) in the same year shall have eight representatives in the said Special Committee

(*a*) as to the sufficiency of the compensation paid or proposed to be paid under sub-section (*3*) or sub-section (*4*), or

(*b*) as to whether any building or street, or square or other land, or any part thereof is required for the purposes of the scheme,

the matter shall be referred to the Local Government, whose decision shall be final."

"(*10*) Notwithstanding anything contained in clause (*ii*) of sub-section (*4*) or in sub-section (*8*) the rate of interest payable, under the provisions of that clause or that sub-section, as the case may be, shall be, or continue to be, four *per cent. per annum* in cases where the sum, in consideration of which the acquisition of the land has been abandoned, has been fixed under sub-section (*3*) before the date of the commencement of the Calcutta Improvement (Amendment) Act, 1923, and the agreement in respect of the payment of the same is executed before, on or within two months after, that date."

NOTIFICATION.

No. 1848L., dated Calcutta, the 23rd July, 1923.—The following Report of the Select Committee on the Calcutta Municipal (No. II) Bill, 1923, (with the Bill, as amended by the Committee), is hereby published for general information.

REPORT OF THE SELECT COMMITTEE ON THE CALCUTTA MUNICIPAL (No. II) BILL, 1923.

We, the undersigned members of the Select Committee, to which the Bill to provide for certain matters in connection with the Budget Estimates of the Corporation of Calcutta for the year 1924-25, the fixing of the rates at which the consolidated rate and the taxes for that year shall be levied and imposed, and the arrangements to be made in connection with the raising of loans during that year, for the fixing of the percentage of the consolidated rate in respect of the added areas during the four succeeding years and for the amendment of section 20 of the Calcutta Municipal Act, 1923, in respect of the qualification of electors, was referred, have considered the Bill and have the honour to submit this, our report, with the Bill, as amended by us, annexed hereto. In reprinting the Bill, all changes made by us have, so far as possible, been underlined.

2. The more important changes are as follows:—

Preamble.—We have made two minor drafting alterations which call for no remark.

Clause 3.—We consider that, with a view to expedition, the scrutiny of the Budget, as framed by the Chairman, should be made by a Special Committee appointed somewhat in the manner laid down in the Thirteenth Schedule to the Act of 1888.

We have added to the number of members that shall serve on this Committee from the Cossipore and Maniktala Municipalities. The Garden Reach Municipality, we consider, is adequately represented under the Bill.

We have provided for the representation of the Corporation on this Special Committee by placing on the Committee eight Commissioners elected from among the ward Commissioners and four Commissioners elected from among the nominated Commissioners.

Clause 4.—The Special Committee will report direct to the Corporation. It is hoped that this will eliminate the present lengthy procedure under which the Corporation, after receiving the General Committee's revised Budget, refer the same again to another Committee of their own before considering the Budget.

We have provided in the usual manner, against failure by the Commissioners of the municipalities included in the added areas to elect their representatives to the Special Committee.

We have provided that the Commissioners from the added areas who will serve on the Special Committee shall also serve on the Corporation when that body considers the final Budget Estimates and proposals as framed by the Special Committee.

We have also provided against default by the Special Committee or by the Corporation in the final framing, and in the passing, of the Budget Estimates and proposals.

We have considered the proviso to the original clause 4, and in our opinion the situation for the year 1924-25 will best be met by arrangements under which the totals of the rate on holdings, lighting rate, water rate and the latrine fees levied in respect of a holding in any of the added areas under the Bengal Municipal Act shall be deemed to be the consolidated rate levied under the Calcutta Municipal Act, 1923, for the year 1924-25.

It is necessary, however, to provide for the assessment of any new building in the said areas which otherwise would escape taxation altogether during that year and we have made a provision accordingly.

Some members of the Committee wish to widen *clause 7* so as to give more relief to the added areas. Others wish to restrict the relief by confining it to the period during which the added areas are receiving no benefit under section 90 of the Calcutta Municipal Act, 1923. The majority of us, however, consider that the clause as framed should stand as an equitable working arrangement.

Clause 8.—We have considered the proposed modification of clause 8, and we are of opinion that the 30th day of September preceding the election is the correct final date to be taken.

We consider that, in view of the provisions of section 25, it is better to omit the first proviso to sub-clause (*a*) of clause 20 which is likely to create difficulty. We have made some other drafting alterations in the clause and made it more specific.

The insertion of the words " or having been " in sub-clauses (*a*), (*b*) and (*c*) is made with a view to taking in cases such as those of a person who is still residing in the ward but has changed his place of residence therein and also cases of persons who have changed their professions, etc.

Clause 9.—We realize that in the transitory period between the old system and new system of assessment (*i.e.*, in 1924-25) anomalous cases may arise, in which it is necessary that the Corporation should be able to apply equitable principles in modification of the strict letter of the law and also to prevent evasion. We have therefore, at the request of the Calcutta Corporation, inserted an enabling sub-clause in clause 9 to deal with this matter.

Note of Dissent by Babu Amulyadhon Addy, M.L.C.

Clauses 4 and 5 should be omitted on the following grounds :—

(1) Even ancestral dwelling-houses which are regarded as sacred by the Indians are acquired to recoup the cost of construction of roads with the drainage, sewering, water-supply and lighting thereof and the owners of the said houses are called upon to pay heavy sums for the exemption of the said houses from acquisition notwithstanding the fact that the opening of roads not only increases the value of adjacent lands but also improves the sanitation of the locality in which the public-at-large are benefited.

(2) I admit an interest at the rate of 6 per cent. (six per cent.) on loans is reasonable, but I am strongly of opinion that it would be unreasonable on exemption fees which are fixed by the Board and against whose decision the persons aggrieved have no right of appeal to a higher and disinterested authority.

If the said suggestion is not accepted, then the words "not exceeding six per cent" may be substituted for the words "six per cent." so that the Board may fix the rate of interest from time to time having regard to the state of the money-market of Calcutta and specially the rate of interest which is paid by the Government of India on Promissory Notes.

It is regrettable that the Select Committee have thought it fit to amend the Calcutta Improvement Act simply by giving unlimited powers to the Board for the acquisition of surplus lands and by increasing the rate of interest on exemption fees from 4 to 6 per cent. (four to six per cent) per annum. It is also regrettable that the suggestions of the public bodies to which the original Bill was referred for opinion, namely the constitution of the Board, Right of Appeal to the High Court on questions of fact and extension of the Improvement Act to Tollygunge and South Suburban Municipalities have been ignored by the Select Committee.

THE CALCUTTA MUNICIPAL (No. II) BILL, 1923;

(as amended by the Select Committee.)

[NOTE.—All changes made by the Select Committee have, so far as possible, been underlined.]

A BILL

to provide for certain matters in connection with the Budget Estimate of the Corporation of Calcutta for the year 1924-25, the fixing of the rates at which the consolidated rate and the taxes for that year shall be levied and imposed and the arrangements to be made in connection with the raising of loans during that year, for the fixing of the percentage of the consolidated rate in respect of the added areas during the four succeeding years, and for the amendment of section 20 of the Calcutta Municipal Act, 1923, in respect of the qualification of electors.

Preamble

WHEREAS it is expedient to give to representatives of the Commissioners of the municipalities which are to be included in Calcutta, under the provisions of the Calcutta Municipal Act, 1923, an opportunity of taking part in the framing and passing of the Budget Estimate of the Corporation of Calcutta for the year 1924-25, in the fixing of the rates at which the consolidated rate and the taxes for that year shall be levied and imposed and in the arrangements that are to be made for the raising of any loan during that year, and so to provide for the framing and passing of the said Budget Estimate, the fixing of the said rate and the arrangements for the said loans; Ben. Act III of 1923.

And whereas it is expedient that the Corporation do fix for the year 1924-25 a favourable percentage in respect of the levy of the consolidated rate on lands and buildings in each of the areas added to Calcutta by the Calcutta Municipal Act, 1923, and that they have power to fix a special percentage in respect of the lands and buildings in any such areas during the four succeeding years;

PART VI.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly :—

A Bill further to amend the Indian Limitation Act, 1908.

WHEREAS it is expedient further to amend the Indian Limitation Act, 1908; It is hereby enacted as follows :— IX of 1908

Short title

1. This Act may be called the Indian Limitation (Amendment) Act, 192 .

Amendment of section 19, Act IX of 1908

2. In section 19 of the Indian Limitation Act, 1908 (hereinafter referred to as the said Act), the following amendments shall be made, namely :— IX of 1908

(a) In sub-section (*1*), for the words "an acknowledgment" the words "a clear and unconditional acknowledgment" shall be substituted, and for the words "signed by" the words "signed and dated by" shall be substituted ;

(b) Sub-section (*2*) shall be omitted ;

(c) Explanation I shall be omitted ; and

(d) for Explanation II the following shall be substituted, namely :—

"*Explanation II.*—For the purposes of this section 'signed' means signed either personally or by an agent duly authorised in writing in this behalf."

Amendment of section 20, Act IX of 1908

3. (a) For sub-section (1) of section 20 of the said Act, the following shall be substituted, namely :—

"Where anything is paid either as interest or part of the principal of a debt or legacy before the prescribed period by the debtor or by his agent duly authorised in writing in this behalf, the entry as to such payment being signed and dated by the payer, a fresh period of limitation shall be computed from the date of payment."

(b) Sub-section (2) of the same section shall be omitted.

Amendment of section 21, Act IX of 1908

4. In sub-section (1) of section 21 of the said Act, after the word "authorised" wherever it occurs, the words "in writing" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The object of the proposed amendments is to decrease litigation, perjury, forgery and fraud. At present many facts are required to be proved by oral evidence which the Courts may or may not believe and the result is always uncertain.

Under the proposed amendment, a clear and unconditional acknowledgment duly signed and dated by the person liable or by his agent duly authorized in writing will be required to extend time. Debtors should not be taken by surprise by an ambiguous or undated writing which might be used to extend the period of limitation.

In section 20, there is always a dispute whether the payment was made on account of interest as such. Under the amended section, part payment of principal and payment of interest have been placed on equal footing. Similar amendment has been made in section 21. Authority of an agent to extend time under any of the sections referred to in this Bill must always be in writing and not oral.

I hope the proposed amendments, if passed into law, will considerably reduce litigation and the multiplicity of witnesses will be avoided.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 2nd July, 1923:—

No. 24 of 1923.

A Bill further to amend the Indian Income-tax Act, 1922, for certain purposes.

WHEREAS it is expedient further to amend the Indian Income-tax Act, 1922, for certain purposes hereinafter appearing; It is hereby enacted as follows — XI of 1922

Short title

1. This Act may be called the Indian Income-tax (Further Amendment) Act, 1923.

Amendment of section 4, Act XI of 1922

2. In sub-section (*2*) of section 4 of the Indian Income-tax Act, 1922 (hereinafter referred to as the said Act), for the words "shall be deemed to be profits and gains of the year in which they are received or brought into British India," the following words shall be substituted, namely — XI of 1922

"shall, if they are received in or brought into British India, be deemed to have accrued or arisen in British India and to be profits and gains of the year in which they are so received or brought."

Insertion of new Chapter VA in Act XI of 1922

3. After Chapter V of the said Act the following Chapter shall be inserted, namely —

"CHAPTER VA.

SPECIAL PROVISIONS RELATING TO CERTAIN CLASSES OF SHIPPING.

Liability to tax of occasional shipping

44A. The provisions of this Chapter shall, notwithstanding anything contained in the other provisions of this Act, apply for the purpose of the levy and recovery of tax in the case of any person who resides out of British India and carries on business in British India in any year as the owner or charterer of a ship (such person hereinafter in this Chapter being referred to as the principal), unless the Income-tax Officer is satisfied that there is an agent of such principal from whom the tax will be recoverable in the following year under the other provisions of this Act.

Return of profits and gains

44B. (*1*) Before the departure from any port in British India of any ship in respect of which the provisions of this Chapter apply, the master of the ship shall prepare and furnish to the Income-tax Officer a return of the full amount paid or payable to the principal, or to any person on his behalf, on account of the carriage of all passengers, live-stock or goods shipped at that port since the last arrival of the ship thereat.

(*2*) On receipt of the return, the Income-tax Officer shall assess the amount referred to in sub-section (*1*), and for this purpose may call for such accounts or documents as he may require, and one-twentieth of the amount so assessed shall be deemed to be the amount of the profits and gains accruing to the principal on account of the carriage of the passengers, live-stock and goods shipped at the port

(3) When the profits and gains have been assessed as aforesaid, the Income-tax Officer shall determine the sum payable as tax thereon at the rate for the time being applicable to the total income of a company, and such sum shall be payable by the master of the ship, and a port-clearance shall not be granted to the ship until the Customs-collector, or other officer duly authorised to grant the same, is satisfied that the tax has been duly paid.

Adjustment. 44C. Nothing in this Chapter shall be deemed to prevent a principal from claiming, in any year following that in which any payment has been made on his behalf under this Chapter, that an assessment be made of his total income in the previous year, and that the tax payable on the basis thereof be determined in accordance with the other provisions of this Act, and, if he so claims, any such payment as aforesaid shall be treated as a payment in advance of the tax and the difference between the sum so paid, and the amount of tax found payable by him shall be paid by him or refunded to him, as the case may be."

STATEMENT OF OBJECTS AND REASONS.

Some doubt has been expressed whether sub-section (2) of section 4 of the Indian Income-tax Act, 1922, fully secures the intention of the Act that the profits and gains of a business accruing or arising out of British India to a person resident in British India should be assessed when received in, or brought into, British India. Clause 2 of the Bill is intended to place the matter beyond dispute.

2. Difficulties have arisen in the assessment to income-tax of occasional shipping belonging to, or chartered by, persons or companies whose principal place of business is not in British India and who have no regular agents in India from whom the tax will be recoverable in the following year. Clause 3 of the Bill accordingly makes special provision for the assessment of the profits and gains of such shipping.

CONSTRUCTION OF A NEW BRIDGE BETWEEN CALCUTTA AND HOWRAH TO REPLACE THE PRESENT FLOATING BRIDGE.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 21ST JULY 1923.

RESOLUTION—No. 2466 Marine.

IN Bengal Government Resolution No. 334 Marine, dated the 29th January 1923, a Committee representative of the chief interests concerned was appointed to consider proposals for financing the construction of a bridge of

the cantilever type which had been recommended by the Committee of Engineers appointed in November 1921. In addition to drafting definite proposals for meeting the estimated cost of a bridge of this type, with its approaches, the Committee was requested to report on the ability of the trade and people of Calcutta and its neighbourhood to bear the charges which would be involved.

2. The Committee have submitted their report which, together with the notes of dissent recorded by some of the members, is published for general information. The report indicates that it will be financially possible to follow the recommendation of the Committee of Engineers in favour of the construction of a cantilever bridge, and Government will now proceed with the necessary measures for the construction of such a bridge. They will be glad to receive any comments from public bodies or others interested, in regard to the recommendations for financing the bridge

By order of the Governor in Council,

A. MARR,

Secretary to the Government of Bengal

NEW HOWRAH BRIDGE.

Report of the Finance Committee.

In Bengal Government resolution No 334 Marine, dated the 29th January 1923, this Committee was appointed to furnish assistance to Government in drafting proposals to meet the cost of a bridge between Calcutta and Howrah of the cantilever type—a type which had been recommended to Government by a Committee of Engineers appointed to advise Government as to the most suitable type of bridge to be constructed The Committee were also requested to furnish their views on proposals which had been drawn up for the levy of a cess on passengers and goods coming into and leaving Calcutta, and in particular on the ability of the trade and people of Calcutta and its neighbourhood to bear the charges incidental to the construction and maintenance of a bridge of the proposed cantilever type

2 The Committee of Engineers had estimated the cost of a bridge of the cantilever type at £2,000,000 This represented the cost of the bridge itself and did not include the expenditure necessary for the acquisition of land, the construction of the approaches and any compensation necessary to interests injuriously affected We have had placed before us a more detailed statement [including (1) an estimate of the actual cost of construction of the bridge itself, furnished by Mr Palmer, Consulting Engineer to the Secretary of State, (2) detailed estimates for the acquisition of land and the construction of approaches, and (3) the claims for compensation put forward by the interests injuriously affected], which gives the total expenditure required in connection with the construction of the new bridge as Rs 6,38,00,000. In this estimate, compensation for interests injuriously affected has been entered at the full amount claimed This expenditure will have to be met by means of a loan, and in our opinion a suitable period for a loan for a work of this character should be 60 years The annual charges on account of interests and sinking fund will depend on the rate at which the loan can be raised We have been advised that with a guarantee from Government, which we assume would be given, or if Government themselves raised the loan, it should be possible to raise the amount required at not more than 5 per cent On this basis an annual payment of approximately Rs 35 lakhs would be required

There are considerations, however, which, in our opinion, make it unlikely that Rs 35 lakhs will really be needed annually As has been stated, the estimate above given includes the full amount claimed as compensation for interests injuriously affected We feel justified, however, in assuming that these claims will not be fully entertained and that a considerable reduction is possible There is a likelihood, too, of cheaper money in the near future and it has been indicated to us that there is also the possibility of cheaper construction Taking all these facts into account we are of opinion that a sum of approximately Rs 31 lakhs should suffice to meet the charges for the construction of a cantilever bridge The problem before us then is to consider whether and by what means this sum could be raised

3 The cost of the present bridge is met by a terminal tax of 2 pies per maund of goods (excluding coal and salt) carried into or out of Howrah railway station on the East Indian Railway, and by an annual contribution from the Bengal-Nagpur Railway. This is, however, only for upkeep. The initial cost of the bridge was met by a toll on passengers, animals and vehicles using the bridge, by a fee of 2 pies per maund on goods and of 3 pies per passenger conveyed on the East Indian Railway to and from Howrah, and by the earnings of ferry steamers The passenger tax and the local toll were abolished in 1888, when the capital cost and interest had been paid off The charge for the bridge was thus mainly borne by those using the bridge

4 We were furnished with proposals for raising the amount necessary for the new bridge by the imposition of a cess on goods imported into and exported from Calcutta by rail and river, and a cess on passenger traffic by the various railways and steamers. It was maintained in justification of these proposals that they represented the best method of carrying out the principle which should govern the financing of this bridge, viz , that the cost should be speard over a very wide basis, seeing that the bridge was a necessity for Calcutta as a whole, for all sections of the community and for the social, commercial and industrial life of Calcutta. This principle we consider sound, but we are not prepared to agree that the course suggested is the best method of carrying it out. Agreeing as we do that the bridge is required for Calcutta as a whole, we consider that it is primarily a civic necessity, and as such should ordinarily be a charge on the population generally in accordance with recognised methods by which municipal activities are financed—in other words, a charge on the ratepayers. We realise that it would not be possible at the present time to impose a charge of this magnitude on the ratepayers of Calcutta and neighbouring municipalities, but we consider that a levy framed on the rateable value of these municipalities should form the basic element in making up the amount required to meet the charges on account of the bridge

5. It has been, and will be, urged that the Calcutta Corporation is faced with large activities in the matter of water-supply, drainage, etc , which may necessitate an increase in the rates But a new bridge between Calcutta and Howrah is a matter of no less urgency than any of the municipal schemes now in contemplation, and there is, in our opinion, no getting out of the fact that the liability for the new bridge, whether it be of the cantilever or any cheaper type, should rest in the first instance on the people of Calcutta and its neighbourhood We do not propose that the Calcutta Corporation shall be required to contribute a specific sum or a specific proportion out of their revenues We consider that, for the purposes of the bridge, there should be a separate tax on the ratepayers of Calcutta and its neighbourhood, based on the existing system of municipal taxation, and we should bring in the municipal authorities in this matter only in requiring their machinery for the purposes of collection In our opinion, it will be reasonable, and we do not think we are making an excessive demand, that a tax of one per cent on the rateable valuation of Calcutta should be imposed for the purpose of the bridge, with a tax on a similar basis in the suburban municipalities We include Howrah in this connection Although it is urged by the representative of the Howrah Municipality that for Howrah itself a bridge is not a matter of vital necessity, the advantages that will accrue to this town from the new bridge will be considerable and Howrah cannot escape contributing its share We are advised that on existing valuation a sum of about seven lakhs can be raised from these sources This is less than a quarter of the required amount, and we do not think that this is an unreasonable demand to make under present conditions on the citizens of Calcutta and it's neighbourhood

6 Having thus determined what in our opinion should be the basic element in the levy, we have given consideration to various other suggestions for the realisation of the balance.

7 First and most important among these is that which was originally put before us—a cess on trade It may be urged that the Howrah bridge benefits only the trade which passes over it, that, precisely because this was so, no other interest were asked to pay towards the construction or maintenance of the present bridge, and that consequently no other traffic should be made to contribute towards the new one. But a bridge between Howrah and Calcutta is a necessity to the general trading and commercial life of both cities and on this ground and because it is desirable to spread the expenditure over a very wide basis, we consider that the trade of Calcutta generally should, as far as possible, be required to contribute. There is, moreover, the important practical consideration that any addition made to the railway charges on traffic to and from Howrah and depôts on the Howrah side of the river is automatically applied to traffic carried over the East Indian Railway to and

from stations on the Calcutta side of the river. If, therefore, the latter traffic were excluded from the operation of the cess imposed for the purpose of financing the bridge, it would nevertheless have to bear the additional burden, the only difference being that the extra amounts thus paid by it would be appropriated by the railway instead of by the bridge authority We believe that a cess on goods imported into, and exported from, Calcutta is feasible. Such a cess is already borne by the traffic which is received or despatched by the East Indian Railway and there is not, in our opinion, any reason why it should not be made universal We recommend, subject to the qualifications mentioned later, such a cess on all traffic brought into or exported from any railway station within Howrah and Calcutta, or brought into or exported from the port of Calcutta by boat or inland steamer Imports and exports by sea we would not assess - this would be tantamount to an addition to Customs duties and, therefore, open to objection Our proposals would, therefore, leave untouched that large amount of traffic entering through the Port of Calcutta which is absorbed in Calcutta itself On the principle that trade generally should pay its share towards the construction of the bridge, this traffic should not escape and, in our opinion, it would bear a cess with no more difficulty than the traffic by rail But we can suggest no practicable method of differentiating at the time of import between goods to be absorbed in Calcutta and other goods, and therefore consider the collection of the cess on this traffic to be impossible It has been objected that the collection of a cess on goods carried by country boat will be no less impracticable, but we consider that it can be done without difficulty through the medium of the Port Commissioners' establishment A cess on road traffic would demand an excessive organisation and create much inconvenience and we do not recommend it In the original proposals put before us a cess at 3 pies per maund was suggested In our opinion this would be too heavy an impost The existing rate on the East Indian Railway, 2 pies per maund, has been based on what the traffic has proved able to bear We see no reason why, if it is required, this rate should not be made universal, but if our other suggestions for the collection of the balance are approved, it will probably be necessary to impose a rate of only one pie per maund. The qualification necessary to our general recommendation are that salt and coal, which are already exempted, should continue to be so and that manganese should be added to this class although now assessed to the terminal tax

8 The foregoing recommendation has reference solely to what is generally known as goods traffic There is, however, a not inconsiderable traffic in parcels This is of two classes—railway parcel traffic and postal parcel traffic It has been urged that, following our conclusions as regards goods traffic a cess might suitably be imposed on parcels While we agree that this would prove a useful source of income, we feel that it would seriously interfere with local retail trade, while the difficulties of collection would be considerable We therefore hesitate to recommend it

9. Following the principle that the basis of taxation should be made as wide as possible, we recommend the taxation of passengers by rail to and from stations in Howrah and Calcutta A tax of 6 pies per passenger is already imposed for the benefit of the Calcutta Improvement Trust on-

(*a*) Every passenger by railway brought to or taken from any station in the Calcutta or Howrah municipalities, provided the journey begins or ends outside a radius of 30 miles from Calcutta (*vide* section 83 of the Calcutta Improvement Act, 1911)

(*b*) Every passenger by inland vessel brought to or taken from any landing place in the Port of Calcutta within 5 miles of Government House, provided the journey begins or ends outside a radius of 30 miles from Calcutta

We do not consider that an increase of this tax to 9 pies per ticket (3 pies to be retained for the bridge) would create any appreciable hardship, while a flat rate of 3 pies per ticket is not an unreasonable charge on persons travelling within the 30-mile radius. It may be necessary to vary both the amount of the charge and the method of applying it in respect to short

distance suburban passengers, who travel on monthly tickets issued at concession rates Such modification will not materially affect the financial result

10 Passengers by sea do not come within the scope of taxation for the Calcutta Improvement Trust, but we consider this a legitimate source for the purposes of the bridge—a tax of 8 annas per person would not press unduly

11. Opinions differ as to the advisability of imposing a tax on passengers by the ferry service of the Port Commissioners, the objections being mainly on the ground that these passengers are chiefly working class people, who could not bear the additional impost without hardship. There seems, however, little distinction between such passengers and, the short journey passengers travelling third class on railways, and when a cess of 3 pies is proposed to be levied on the latter, there seems no ground why a similar charge should not be paid by the former We would impose a 3 pies cess in cases where the fare for the single journey is one anna or more

12 There remains for consideration in the matter of taxation the case of tramway passengers The latest designs for the new bridge provide for two separate tramway tracks, one on either side of the bridge In 1914, when consideration was given to the financing of the proposed new bridge—then estimated to cost one crore of rupees it was suggested that the Calcutta Tramways Company should contribute Rs 25,000 per annum The Tramways Company did not accept this suggestion, but intimated their readiness to pay a track rent of Rs 4,000 per mile of double track and to renew and repair the road surface of the bridge between the tramway and 18 inches beyond the rails on each side They further indicated their readiness to pay a sum towards the construction of the bridge, but left this for further consideration, pending Government's views on their suggestions We have seen the Joint Managers of the Company and they have repeated the previous offer as regards track-rent, but they are not prepared to make any statement as to a contribution towards the capital account for construction. We discussed with them suggestions that had been made for a cess on tramway passengers, but found them strongly opposed to any such taxation—even in the case of passengers travelling over the new bridge In their opinion, a traveller from Howrah to Calcutta would prefer to walk across the bridge rather than pay for the comfort of being conveyed across the bridge With this view we are unable to agree With the new bridge the journey from Howrah to Calcutta and *vice versa* will be longer and involve climbing a long slope at one end, and the employee of an office in the vicinity of Clive Street or Dalhousie Square will be quite ready to use the tram when he can get it all the way between Howrah and his office

13. We realize, however, that a surcharge on tramway passengers may prove of little value unless accompanied by a toll on foot passengers We do not favour the imposition of tolls, if it can be avoided, and we would prefer therefore a direct contribution from the Tramways Company The traffic of this Company should increase very considerably and the linking up of the Howrah and the Calcutta systems should prove of great advantage to the Company The Company will derive great benefit from the new bridge; and we do not think that the payment of a track rent of Rs. 4,000 is at all commensurate with the benefits that will accrue to them. A contribution of Rs. 50,000 per annum is the least that we should expect from the Tramways Company.

14 These constitute our suggestions in regard to the items of taxation that can be imposed for the purposes of the bridge They cover the contributions which can be realised from the public and trade There are certain contributions, however, which may also be expected from other sources. In the scheme for financing the new bridge set out in Bengal Government resolution No. 2151 Marine, of the 18th June 1914, it was suggested that the local Government should contribute a sum of one lakh annually, or roughly, one-sixth of the total annual contributions towards the construction of a bridge estimated to cost one crore. In making this

suggestion, Government stated that while they did not consider it would be justifiable to construct the new bridge at the expense of the general tax payer and were consequently not prepared to take upon themselves the whole cost of providing it, their interest in Calcutta was so great that they were prepared to bear a reasonable proportion of the expenditure to be incurred. Following on this pronouncement, we should expect that the Government of Bengal will bear a similar proportion of the charges for the new bridge, *i.e.*, five lakhs of rupees From the Imperial Government we should also expect some contribution and we base our contention on this score on the ground that they are users of the bridge in respect of postal and military traffic As a further argument it might be observed that the Imperial Government derive a large amount of their revenues from the Port of Calcutta in the shape of Customs duties and should therefore make some contributions towards the construction of a bridge which will facilitate largely the trade that brings in this revenue

15 The financial effect of the various suggestions that we have outlined above we estimate as follows

	Rs
Bridge tax on Calcutta and neighbouring municipalities	6,00,000
Bridge tax on Howrah	1,00,000
Levy on goods traffic by rail and river and boat at 1 pie per maund	7,00,000
Terminal tax on passengers by rail at 3 pies	5,00,000
Tax on passengers by sea at 8 annas	1,00,000
Tax for passengers by the Port Commissioners' Ferry Service	1,20,000
Tramway track rent	50,000
Contribution from the Government of Bengal	5,00,000
Contribution from the Imperial Government	5,00,000
Total	31,70,000

In respect of taxation we consider the proposals, that we have suggested, to be practicable In the result their combined effect is to provide for the sum required to meet the necessary loan for the construction of the bridge

As regards maintenance, the charges will be small during the earlier years of the life of the bridge, and it may be expected that by the time the bridge is constructed the income from the varying sources above mentioned will suffice to meet not only the requirements of the loan, but also maintenance charges There is thus ample provision to meet both the cost of a cantilever bridge and its maintenance The proceeds of the contributions and cesses that we suggest will as time goes on, with the increase from the bridge tax that may be expected from the increased annual values of the municipalities, more than cover the annual necessary outlay, and it may therefore be unnecessary in future years to impose taxation to the full extent suggested Holding, however, as we do that the basic element in any scheme for financing this bridge should be through the medium of a bridge tax on the ratepayers of the various municipalities, we recommend, and on this point we lay strong emphasis, that this particular tax should be maintained at the fixed rate suggested, and that the relief that can be given should be in favour of the other sources of taxation—in particular, trade

16 In conclusion, we desire to pay a tribute to the assistance given us by Mr Purcell, the representative on this Committee of the East Indian

Railway. Mr Purcell died ,to our regret, before our deliberations were ended, but his services in the discussion of the various proposals and in the preparation of this report were invaluable

NEW HOWRAH BRIDGE (FINANCE) COMMITTEE.

Note by Mr. C. C. Sinha, M. A., B. L., Chairman, Howrah Municipality.

Under the terms of reference to the Committee, strictly speaking, I am precluded from considering the suitability or otherwise of the cantilever type of bridge as recommended by the Committee of Engineers, but it may be necessary with a view to solve the financial difficulty to consider whether a cheaper type of bridge might not do Recently a note was circulated by Sir Bradford Leslie suggesting the erection of twin bridges at a much lesser cost, and it has been shown by comparison with the cantilever type the advantages and disadvantages of the twin bridges Now that we are hard up to find finances for the cantilever type of bridge, and as Sir Bradford's scheme would be far less expensive, it may well be considered whether or not we should go in for the cheaper type. The principle enunciated in the draft report, that the basic element in any scheme of financing the bridge should be through the medium of a bridge tax on the ratepayers of the various municipalities, cannot be accepted, as the bridge will benefit trade and commercial interests in Howrah and Calcutta more than the ordinary ratepayers I think, therefore, that the interests most benefited, viz, trade, should pay for the bridge During the discussion many of the members pointed out that trade could not be further taxed, though the draft report assumes that it can be And if the bridge is to be constructed by putting undue pressure on trade, thereby affecting not only trade but also the public at large, I think that, not only in the interest of trade, but also in the interest of the general public, we should have a cheaper type of bridge, so that the trade and the general public may have to bear a far smaller amount of taxation than it would be necessary if we stick to the cantilever type

2 The draft report admits that the bridge between Howrah and Calcutta is a *necessity* to the commercial life of both cities, and as such the trading and commercial interests should be taxed in the first instance, and the basic principle should be, as I have already said, taxation on or contribution by the interests materially benefited

3 The people of Howrah, excepting the commercial classes, would not derive so great an advantage as to make them bear the heavy burden of an additional bridge-tax It might be pointed out that the cess on trade would fall to a large extent on Howrah and Calcutta, and I think that instead of levying a direct tax on the people of Howrah and Calcutta, which is surely to lead to discontent and consequent agitation, it would be better to increase the cess on goods traffic to one-and-a-half pies per maund, if not two pies per maund I may further point out here that the proposed tax on railway parcels and postal parcel will, to a certain extent, fall upon the people of Howrah and Calcutta, and there is also no guarantee, if the Tramway Company pays the track rent, that it would not increase the tramway fares Thus it would appear that the people of Howrah and Calcutta will have to pay indirectly a considerable amount for the bridge, and it would not be fair to levy a direct tax on the people of those towns

4 It is proposed to increase the terminal tax and thus to realize a certain amount through the railways I do not see why the Imperial Government should not contribute more than what has been proposed in the draft report The Imperial Government, I understand, derives from the Customs duties in Calcutta a revenue of several crores, and I should think that it should pay 10 lakhs a year for the bridge, which will improve the Port and facilitate largely the trade that brings in so much revenue, apart from the question of the use of the bridge for military and postal purposes I think from this point of view the bridge is an Imperial necessity.

5 Coming from the consideration of the general principles to a consideration of the particular case of Howrah, I am emphatically of opinion that no additional taxes should be levied on the people of Howrah on account of the bridge The people of Calcutta are deriving a benefit on account of a

portion of the terminal tax being set apart and utilized by the Calcutta Improvement Trust for the improvement of the town of Calcutta, while Howrah gets no portion of this for its improvement. It is well known that many important schemes are being held up for want of funds, and it has been practically settled that the Improvement Trust will be introduced into Howrah, and at the conference held on the 2nd August 1922, under the presidency of the Hon'ble Minister in charge of the Local Self-Government Department there was a sort of a promise that some revenue might be obtained by increasing the terminal tax. The proposed appropriation of the increase of the terminal tax for the bridge closes one of the principal sources for financing the Improvement Trust in Howrah, for I do not think that the railway companies or travelling public would agree to a further increase in the terminal tax for the Improvement Trust in Howrah. As the Improvement Trust is going to be introduced into Howrah, and the ratepayers of Howrah have to be taxed for that purpose, and probably taxed higher than originally proposed, in the absence of any money from the terminal tax, the bridge-tax should not be imposed on them. I might here point out that Howrah can fairly lay a claim to a portion of the terminal tax, as it is levied not only on the people who come to Calcutta but also on a considerable number of people who come to Howrah, and work here in the mills and factories. Therefore practically by appropriating the whole of the increase in the terminal tax for the bridge, Howrah is being deprived of a portion of her dues in this respect, and as such Howrah may well claim exemption from the imposition of the bridge-tax. Calcutta on this point stands on a separate footing because Calcutta is getting a portion of the terminal tax on account of the Improvement Trust, from which it would not be deprived because of the additional levy on account of the bridge. Therefore Howrah's claim to be exempted from the bridge-tax is certainly better than that of Calcutta.

6. So far as Howrah is concerned, leaving aside the question of civic amenities, which in these days of rise in prices may well be left out of account, at least so far as the majority of the people are concerned—who are ordinarily middle class people already burdened with a heavier rate of municipal taxation than that of Calcutta—the general public, except perhaps a portion of the people residing in the central part, would not be much benefited by the bridge as a means of communication between Howrah and Calcutta. The bridge, if anything, is a great necessity for the various mills and factories and railways on this side of the river, and I do not see why these commercial firms and railways should not pay for the same.

7. There will be a distinct disadvantage and loss of income to the Municipality, at least for many years to come, and loss of service to many of the residents of Howrah, after the bridge is constructed, as the fixed cantilever type of bridge without opening for ships will permanently prevent not only all possibilities of the expansion of the Port northwards, but also the existing dockyard would have to be closed on account of these disadvantages.

8. The incidence of taxation in Howrah is considerably higher than that of Calcutta. The amount of taxation varies from 24 per cent. to 28¼ per cent. and the Commissioners of Howrah could not levy an educational cess, as they knew very well that the ratepayers of Howrah have to be taxed for the Improvement Trust. It would be a great hardship on the people of Howrah when the rates will have to be increased for the improvement Trust, but as it is necessary to have an Improvement Trust, the people of Howrah will have to bear additional taxation on that account, and it would not be possible to burden them for any other purpose. As I have already stated, excepting the people in the central portion of Howrah, the people of the northern and southern portions have very few occasions to use the bridge for going to and coming from Calcutta, so general taxation on the whole population would be improper. I am quite sure that the people of Howrah are quite unable to bear any additional taxation for the construction and maintenance of the bridge. If the bridge is required for the people, and if the people cannot bear the expense of such a bridge, I should think that we

should rather abandon a bridge of such a costly type than tax the people to an extent which they cannot bear, and thus create discontent

9 Coming now to the figures as given in the draft report, even if we are to provide funds for the cantilever type, that can be done without levying an additional tax on the people of Howrah, and possibly also on those of Calcutta, as the following table will show —

	Rs
(1) Levy on goods traffic by rail and river boat at 1½ pies per maund	12,37,000
(2) Terminal tax on passengers by rail at 3 pies	5,40,000
(3) Tax on passengers by sea at 8 annas	1,20,000
(4) Tax on railway parcels at 1 anna per rupee	3,50,000
(5) Tax on postal parcels at 1 anna per rupee	3,50,000
(6) Contributions from the Government of Bengal	5,00,000
(7) Contributions from the Imperial Government	10,00,000
(8) Contributions from the Port Commissioners	2,00,000
Total	43,47,000

We do not require so much as Rs 43,47,000 per year for the annual repayment and the cost of maintenance Rupees 37,00,000 per year is all that is required Even if we reduce the Imperial Government's grant by 5 lakhs, a sufficient fund can be provided for the annual repayment and the cost of maintenance without levying an additional tax on the people of Howrah or Calcutta for that purpose

It now appears that we require only Rs 31,70,000 So in the figures given in my note, dated the 16th May 1923, which may be regarded as my note of dissent, some modifications might be made without unduly taxing the goods traffic and I would, therefore, suggest that if the levy on goods traffic be at the rate of 1 pie only and also if the cess on parcel be omitted, then even, provided the Imperial Government pays about 8 lakhs we might meet the cost of such a bridge without taxing the people of Calcutta and Howrah I am still of opinion that we should go in for a less costlier type of bridge

Note of dissent by Mr. E. J. Oakley.

As requested by the Chairman of the Howrah Bridge Committee at the meeting, held on 8th May, to consider the draft report to be submitted to Government, I submit herewith a note of dissent from the general recommendations embodied therein

First, I would say that I do not for a moment dispute the urgent necessity for a new bridge connecting Calcutta with Howrah - that is an obvious fact that admits of no dispute. What I wish to urge is that the present time of financial stringency and wide depression throughout the world is a particularly inappropriate one to launch out into enormous and largely unknown capital expenditure which, if the method of finance proposed is adopted, must of necessity impose an additional burden on the trade of the port for the next 60 years

I object entirely to the principle of the method suggested for providing "service" for the loan or loans that will be required for what is, after all, a purely "civic" necessity, by an impost on trade, whereby an added burden is placed upon commodities from which a very large portion of Imperial and Provincial revenues is already derived, in the form of import duties and other forms of direct and indirect taxation

In addition to such taxation the trade of the port has already to bear the normal port charges and it is interesting to study the steady and alarming increase in such charges since pre-war days The following figures were given during the course of the Committee's deliberations, and are eloquent :—

Calcutta Port Commissioners' Charges

Year	Amount per ton
	As
1913-14	9 9
1914-15	10 9
1916-17	14 1
1917-18	11 7
1918-19	17 9
1919-20	20 3
1920-21	22 5
1921-22	27 22
1922-23	23 1

The abnormally high figure for 1921-22 was due to special non-recurring causes, but eliminating these, it would have been reduced to, say, 22 0 annas, or approximately the same as the previous year

The above figures speak for themselves and it is common knowledge that millions are being spent on new docks and general improvement of port facilities, all of which will have to be paid for. It is reasonable therefore to assume that these charges are at any rate more likely to increase than decrease.

The proposed impost of an additional one pie per maund may not appear a very large sum, but, owing to the grave difficulties in collection that are certain to arise in the case of boat traffic, it is very doubtful whether, if imposed, the tax will produce anything like the sum anticipated, and then, what is more likely than that, another pie will be added to the tax to make up the deficit

A further grave injustice arising out of a tax of this nature on goods came to light as a result of the special cargo surcharge imposed as a war measure, apart from the particularly unfair and objectionable one of imposing the duties of tax collectors upon private carrying companies. This was the fact that in many cases, owing to a competitive route being available, any increase on rates equivalent to the tax was impossible, with the result that the tax fell upon, and had perforce to be paid by, the carrying companies themselves

To give a specific instance, the whole of the very large traffic from Eastern Bengal, Cachar and Sylhet, and Assam, brought into Calcutta by the vessels of the inland steamer companies for export would be liable for this tax, whereas

goods from these districts carried to Chittagong by the Assam-Bengal Railway competitive route would be free This would be, in effect, a direct subsidy paid by the trade of Calcutta to the port of Chittagong, its keenest competitor for the important jute and tea export trade!

The only way to avoid this would be for the rates to be kept as at present, and the tax to be paid by the unfortunate carrying companies themselves, as was forced upon them in many instances in connection with the war surcharge on cargo referred to above.

To my mind the question of financing the proposed bridge is one solely for the three parties who are those principally interested, namely, the Corporation of Calcutta and the surrounding Municipalities, the Government of Bengal, and the Imperial Government

Primarily the Calcutta Corporation and the Howrah Municipality are the two most concerned, and undoubtedly the correct method of financing the new bridge would be for these two bodies, to raise the necessary funds, the "service" for which would fall upon the rates It can, however, quite logically be argued, in fact it has been so argued in Committee, that the Imperial Government, which derives so large a portion of its revenues through the Port of Calcutta, and the Government of Bengal, of which Government Calcutta is the capital, should equally share in the necessary burden

If the burden be equally divided a simple sum shows that the required amount can be provided as follows :—

	Rs
Corporation of Calcutta and surrounding municipalities	14,00,000 (equals 2 per cent addition to the rates)
Government of Bengal	9,00,000
Government of India	9,00,000
Annual "service" required	32,00,000

Or if the other sources of revenue recommended by the Committee, excluding goods, are taken into account, the proportions would be as follows :—

	Rs
Passenger terminal tax	5,00,000
Passengers by sea tax	1,00,000
Port Commissioner's ferry service	1,20,000
Tramway tract rent	50,000
2 per cent on Calcutta and Howrah rates	14,00,000
Government of India	5,00,000
Government of Bengal	5,50,000
TOTAL	31,70,000

We have been eloquently told by the civic representatives on the Committee, however, that it is, "impossible" for them to provide anything, and that the rates are already as high as they can go in view of the heavy expenditure on improved water supply, sanitation, etc, with which they are faced

I do not think, however, that an extra 2 per cent on the rates can be considered as very excessive in return for the general improvement in rateable values that is bound ultimately to follow improved communications

It is not improbable that the two Governments concerned will join in the almost universal chorus of *non possumus*, in respect to their suggested contributions, that has characterised the meetings of the Committee throughout

The inevitable conclusion that has been forced upon me, and I gather a considerable proportion of the other members of this Committee, is a definite one, namely, that at present time, and probably for many years to come, Calcutta cannot afford a cantilever bridge of the size and cost of that proposed, and I subscribe unhesitatingly to such conclusion

What is the alternative? To my mind it is a simple one, namely to cut our coat according to our cloth, and replace the present bridge with another similar one Although this is, strictly speaking, outside the terms of reference, I venture to submit such alternative as worthy of the fullest consideration.

A floating bridge capable of carrying all the traffic that is likely to arise during the next 25 to 30 years can be provided, we are told, for some £1,600 000 against £[illegible],000,000, the "estimated" cost of the cantilever one This being so, the annual service required would amount to some Rs. 13,00,000 at 5 per cent as against Rs 36,00,000 for the cantilever bridge. Proceeding on the former lines this "service" could be easily met as follows:—

	Rs	
Calcutta and Howrah Corporations	7,00,000	(1 per cent only on present rates)
Government of Bengal	3,00,000	
Government of India	3,00,000	
TOTAL	13,00,000	

If, however, the recommendations of the Committee as regards a tax on passengers were given effect to, but excluding goods, the problem becomes a still more simple one, namely,—

	Rs
Tax on passengers by rail	5,00,000
Tax on passengers by sea	1,00,000
Tax on Port Commissioners' ferry service	1,20,000
Tramway tract rent	50,000
Contribution from Government of India	3,00,000
Contribution from Government of Bengal	2,30,000
TOTAL	13,00,000

or sufficient without increasing Municipal rates

I do not object to a passenger tax in principle, for the simple fact that the person interested is in a position to protect himself to a certain extent by not travelling, or reducing his travelling to the point at which the tax does not particularly hurt him

Whether this applies however to the short distance ferry trafic run by the Port Commissioners is very doubtful and I would be in favour of eliminating this source altogether and making up the required amount by increased contributions from the Local and Imperial Governments

The case of goods traffic is very different, it is the commercial life blood of the community, and anything in the nature of an arbitrary tax, over and above the actual cost of carriage, and a reasonable profit to the carrier, is an extremely dangerous expedient, with results that cannot be forseen or foretold

Note of dissent by Mr. S. N. Mallik, Officiating Chairman, Corporation of Calcutta.

The Committee have stated in their draft report that the new bridge is primarily a civic amenity, indeed a necessity, and that the liability for it should rest in the first instance on the people of Calcutta and its neighbourhood In the opinion of the Committee a levy on rateable value in Calcutta and Howrah should form the basic element I altogether dissent from this view A new bridge between Calcutta and Howrah will serve not merely the people and trade of Calcutta and its neighbourhood, but also the thousands of people from outside who daily swarm into the city to enjoy its amenities, and profit by the opportunities it affords, it will also serve the enormous trade and commercial interests which radiate from Calcutta In fact, its benefit to trade and commerce will far transcend the limits of the city or the province and I maintain that the new bridge is not merely a local necessity but is a provincial and an imperial concern No scheme of finance which does not recognize this cardinal fact will ensure a just and equitable incident, and the proposals of the Committee are, in my opinion, vitiated by their initial mistake of regarding the bridge only in the nature of a local improvement

2 An annual sum of Rs 35 lakhs will be required to pay the interest and sinking fund charges on account of the new bridge, but the Committee's proposals however aim at raising an annual revenue of Rs 41½ lakhs, of which about Rs 20¾ lakhs or 50 per cent will have to be contributed directly or indirectly by the people of Calcutta in some shape or other—Rs 10¾ lakhs will be contributed by the people outside, Rs 5 lakhs by the Government of India note below how the figure of Rs 20¾ lakhs to be contributed by the people of Calcutta is arrived at The proposed levy of 1 per cent on rateable value is a direct tax on property in Calcutta and is expected to yield Rs 6 lakhs The levy on goods traffic by rail, river, and boat is expected to yield Rs 8¼ lakhs, but about three-fourths of this will probably be in respect of goods intended for the people of Calcutta who will therefore be practically paying about Rs 6¾ lakhs The tax on coal consumed locally (viz , Rs 3,20,000) is a direct contribution by the people of Calcutta It may be taken that one-fourth of the terminal tax (Rs 5,40,000) and half the tax on parcels (Rs 7 lakhs) will be paid by the people of Calcutta Although the revenue will be raised under various heads, it should be noted that it will come out of the same pocket If it is held that the provision of a new bridge is an urgent local improvement, then I submit that the ratepayers of Calcutta who now contribute 2 per cent to the Calcutta Improvement Trust should be allowed to reduce it by half the 1 per cent thus set free being utilized for financing the bridge It would be grossly unfair to realize 2 per cent from them towards local improvements which the Trusts are carrying out and still further tax them for other local needs

3 I cannot too strongly emphasize the fact that the present resources of the Corporation are barely sufficient to meet the needs of a growing municipality, and that the unutilized margin of taxation amounting to 3½ per cent of the rateable valuation will have to be drawn upon within the next few years to finance the scheme for the improvement of water-supply and the provision of a new drainage outfall The Corporation have recently undertaken the responsibility for the improvement of primary education in Calcutta and may eventually have to levy an educational cess The scheme for a City Veterinary Department has been approved, but has had to be kept in abeyance for want of funds along with several other projects of improvement The municipalities of Cossipore-Chitpur, Maniktala, and Garden Reach have all been added to Calcutta and the Corporation will have to incur an expenditure of over a crore for their improvement The people of Calcutta would probably never have acquiesced in the amalgamation if they had known that besides an increase of municipal taxation, they might have to pay a bridge cess, or bear other extraneous burdens. I am decidedly of opinion that the capacity of the ratepayers and the public generally of Calcutta will be taxed to the utmost during the next few years for ordinary municipal requirements, and that the imposition of any further serious burden on them cannot be thought of In any case, I do not

consider that the proposals of the Committee secure a just and equitable incidence While the people of Calcutta will be required to pay 50 per cent. of the annual cost, the Government of India who derive Rs 17 crores a year from Customs revenue from Calcutta will pay only Rs ·5 lakhs which, in my opinion, is too small a proportion I would suggest that it should be at least Rs. 10 lakhs a year I made this suggestion in the Committee with the result that the Committee put down Rs 5 lakhs which sum, in my opinion, very inadequately represents the Government of India's interest in the project.

4 The Port Commissioners should also contribute a substantial sum as the new bridge will afford greater facilities for the river traffic, and the cost of upkeep will be substantially reduced Besides, a great deal of the trouble in connection with the design and type of the new bridge has arisen owing to the requirements of the Port Commissioners who are more vitally interested in the matter than anybody else, and it seems anomalous that they should contribute nothing At an early stage of our deliberations the Committee thought that they should pay Rs 2 lakhs and I would retain this figure

5 If a satisfactory scheme of finance to meet the annual cost cannot be devised without imposing a disproportionate burden on the ratepayers and citizens of Calcutta, then I fear the idea of a cantilever bridge will have to be abandoned as being beyond available means and resources It is true that this type was recommended by an Expert Committee of Engineers, but when the Committee examined the matter, the estimate for a cantilever bridge amounted to Rs 3 crores as against Rs 247½ lakhs for Sir Bradford Leslie's twin bridges of the floating type, the figures in either case being exclusive of the cost of land and compensation The present estimate for a cantilever bridge amounts to Rs 638 lakhs including cost of land and compensation and it is by no means certain that the Committee, if they had the revised figure before them, would still have recommended this type, irrespective of all financial considerations In view of the enormous difference in cost between the two types and our obvious inability to finance the cantilever bridge, I think that the question of the type of bridge should again be examined in the light of the present estimate My own opinion is that a cantilever bridge is much too costly for us and we cannot afford it, whatever may be its advantages from the traffic and the æsthetic points of view, and we should adopt a cheaper alternative It should be remembered that the present bridge was erected in 1873-74 at a cost of about Rs 27 lakhs, and in spite of all its drawbacks it has stood well for about 50 years I venture to suggest that independent evidence be obtained in regard to the condition of the present bridge and the possibility of prolonging its life for a reasonable period by such repairs and improvements as may be found necessary. In the present condition of the money market, it will be a substantial gain if the expenditure on a new bridge can be deferred until conditions become easier.

Joint Note of Dissent by Babus Jadu Nath Roy and Norendra Nath Roy, Members, New Howrah Bridge (Finance) Committee.

The cost of the new bridge of the cantilever type and the expenditure involved for the acquisition of land, the construction of approaches and compensation to be paid to interests adversely affected by a permanently closed bridge, will amount to about six-and-a-half crores of rupees. The cost of the present bridge, which gave us very good service for over forty years, was only about twenty-two lakhs of rupees It can be expected that a suitable bridge of the floating type, built to meet present-day requirements, and having arrangements for occasional openings to allow vessels to pass, can be built at a cost not exceeding two-and-a-half crores As this bridge can be built on the old site, it will not be necessary to go into additional expense for new approaches, nor will it be necessary to pay heavy compensation to any interest adversely affected, as there will be arrangements for opening the bridge occasionally to allow vessels to pass

To finance a bridge of the cantilever type, costing about six-and-a-half crores of rupees, all sorts of impositions have been sought, including a separate tax on the taxpayers of Calcutta and its neighbourhood, and this will mean one per cent added to the existing high municipal rates Boat and steamer traffic, which will not be in any way benefited by the proposed bridge, will also be taxed

The cost of a cantilever bridge has been taken to be about six crores and a-half But as it is proposed to raise Rs 11,55,000, the cost seems to be nearer eight crores and-a-half than six

In our opinion Calcutta has not the ability to pay for such an expensive bridge of the cantilever type, and a bridge of less expensive type like the present floating bridge should be adhered to

With that view, tenders should, without loss of time, be invited from reliable firms in Great Britain, the Continent and America

Note of dissent by Mr. H. St. G. Gilmore, Traffic Manager, Eastern Bengal Railway.

It appears to me that at the present time of financial stringency and trade depression, and when many other works of public utility are being provided or projected, a bridge costing Rs 6,38,00,000 is beyond the means of Calcutta and its neighbourhood to provide, and I would suggest that the question of providing a cheaper bridge be given further consideration

2. The suggestions outlined by the Committee for meeting the cost of the bridge are such that liability to pay the tax would fall on the same person several times over which does not appear to be fair.

3. I am strongly opposed to goods traffic, parcels and passengers carried by Railways running into Calcutta (as opposed to those running into Howrah) being called upon to contribute towards the cost of the bridge The proposed taxing of goods and passengers to and from stations on the Howrah side is designed to take the place of a bridge toll and is, therefore, on an altogether different footing to the proposed taxation of goods and passengers carried to and from stations on the Calcutta side Moreover, as the Port of Chittagong is in competition with the Port of Calcutta, a Railway, such as the Eastern Bengal Railway, having its termini in Calcutta, would be at a disadvantage when competing with the Assam-Bengal Railway route if traffic to and from Calcutta were taxed, while traffic to and from Chittagong remained free, and would doubtless, in some cases, have to pay the bridge tax from its own revenue

4 The Eastern Bengal Railway net revenue (after deducting working expenses) does not provide an adequate return on its capital cost Any additional revenue that can be raised on the traffic of the Railway is accordingly needed to raise the return on capital and to help to provide funds for the many additions and improvements necessary I would add that particularly in the case of passengers the rates at present charged are as high as the traffic can bear

5 I am, therefore, of opinion that such sum as may be required for financing the bridge should be obtained from the following sources —

(*i*) Corporations of Calcutta and Howrah,

(*ii*) Goods and passenger traffic to and from Howrah stations—in lieu of bridge toll,

(*iii*) Tramway track-rent,

(*iv*) Government of Bengal, and

(*v*) Government of India

REPORT OF THE NEW HOWRAH BRIDGE (FINANCE) COMMITTEE.

Note of dissent by Mr. G. D. Birla.

I regret that I cannot quite agree with my colleagues who have signed the main report.

I confess that I am not competent to give a considered opinion on the technical question of the particular type of bridge required between Howrah and Calcutta in place of the existing one It has, however, to be borne in mind that the general body of ratepayers of Calcutta are against the proposal to construct a bridge at a cost of about 6½ crores of rupees It may be that a cantilever bridge is the best suited to Calcutta from a purely engineering point of view, but the opinion of engineers ought not to be the deciding factor in arriving at a proper conclusion in a matter entailing such a huge expenditure.

The most important question for consideration in the matter, undoubtedly, is how to finance the scheme of a new bridge In these hard days when business is so depressed, when very considerable distress prevails all over the province among the middle classes due to unemployment, when Government is pledged to a policy of economy and retrenchment, and when there have been such insistent demands for the provision of funds in so many useful directions for the benefit of the people, it will not be anything short of a wasteful luxury if such a huge amount as 6½ crores of rupees is devoted to the construction of the proposed bridge I believe that this heavy expenditure would be an unnecessary burden on the people concerned It appears to me, therefore, that if a bridge of the cantilever type cannot be built for a sum less than this, the proposal should be abandoned altogether as one beyond the reach of practical means In a matter like the one under consideration, especially at a time like the present, the principle of cutting the coat according to the cloth you have, ought to be strictly adhered to

I do not, of course, ignore the fact that Calcutta requires a new bridge urgently If the present bridge is to be replaced by a new one, the latter should be a structure of a decent and enduring nature, and be worthy of this great city I think, however, that this need of Calcutta ought to be met at a smaller cost than that estimated for the proposed cantilever bridge. If it is found possible to get such a bridge at a reasonable cost, we may have it It might be, that if fresh estimates are made, it would be found possible to build a bridge of this type at a smaller cost than that estimated for What appears to me objectionable is not the nature of the structure but its heavy cost, which is out of all proportion to the means of those who will be called upon to finance it.

The Committee of Engineers in their report estimated the cost of construction of the main structure of the bridge at about 2 million pounds sterling Why this estimate has been raised since then to 2¾ millions I do not quite see The report of the Committee of Engineers was drawn up in February 1922, and so far as my business experience goes the price of every material has fallen since then In certain types of iron work prices have fallen even by 20 per cent to 30 per cent I am inclined, therefore, to the conclusion that the present cost of the main structure of a cantilever bridge may be brought down to a much lower figure than that estimated by the Committee of Engineers

The most outstanding instance of over-estimation may, it appears to me, be found in the items under the heads, which deal with the "Valuation of land and structures" and the "Compensation claimed by various Docking Companies" The signatories to the main report also "feel justified" "in assuming that these claims will not be fully entertained and that a considerable reduction is possible."

There remains no doubt, therefore, that the estimates may be reconsidered with some advantage From the information available to me about the nature and extent of the interests of the various Docking Companies to be affected by the construction of the proposed cantilever bridge, I am inclined to believe that these claims are exaggerated I think it my duty, therefore, to point out in emphatic terms that no concern or interest ought to be allowed to take undue advantage of the building of a new bridge between Calcutta and Howrah.

I believe that, if proper care is exercised and a strict investigation made, there are great possibilities of large reductions being effected in the cost of the new bridge, even if it be of a cantilever type I feel gratified to find that my colleagues, who have signed the main report, have, on a second consideration, agreed to reduce the annual yield of taxation from over 38 lakhs of rupees to below 32 lakhs of rupees as suggested by me But still our difference arises out of the fact that they do not suggest any solution as to what has to be done if it is not found possible to build a bridge of the cantilever type with the funds available under their recommendations I desire to make it clear that if it is not found possible to build such a bridge at a reasonable cost, the idea of such a bridge should be dropped as a proposition not within the bounds of practical finance

I regret I cannot quite agree with them as to the principle on which taxation has been recommended The report after discussing various proposals for raising money states in paragraph 4 as follows —

> " Agreeing as we do that the bridge is required for Calcutta as a whole, we consider that it is primarily a civic necessity, and as such should ordinarily be a charge on the population generally in accordance with recognised methods by which municipal activities are financed—in other words, a charge on the ratepayers We realise that it would not be possible at the present time to impose a charge of this magnitude on the ratepayers of Calcutta and neighbouring municipalities, but we consider that a levy framed on the rateable value of these municipalities should form the basic element in making up the amount required to meet the charges on account of the bridge "

The report further states at the end of paragraph 15 :—

> " The proceeds of the contributions and cesses that we suggest will as time goes on, with the increase from the bridge tax that may be expected from the increased annual values of the municipalities more than cover the annual necessary outlay, and it may therefore be unnecessary in future years to impose taxation to the full extent suggested Holding, however, as we do that the basic element in any scheme for financing this bridge should be through the medium of a bridge tax on the ratepayers of the various municipalities, we recommend, and on this point we lay strong emphasis, that this particular tax should be maintained at the fixed rate suggested, and that the relief that can be given should be in favour of the other sources of taxation—in particular, trade "

I am unable to subscribe to the dictum laid down by my colleagues. I admit that the proposed bridge would be of benefit to all classes of people in Calcutta and Howrah But the people of these two cities are not the only parties to be benefited by it. The bridge would bestow immense advantage on the trade and commerce not only of Bengal but also of the adjoining provinces. This is a matter which cannot be ignored Further, under the scheme proposed by my colleagues, Calcutta has been asked to pay directly and indirectly in the following ways :—

(*a*) levy on goods traffic;

(*b*) terminal tax on passengers by rail;

(*c*) tax on passengers by sea;

(d) tax for passengers by the Port Commissioners' Ferry Service,

(e) tramway track rent,

(f) contribution from the Government of Bengal

I do not find any justification, therefore, in taxing the ratepayers of Calcutta and the neighbouring municipalities over and above these The argument used in the report that "a new bridge between Calcutta and Howrah is a matter of no less urgency than any of the municipal schemes now in contemplation and there is in our opinion no getting out of the fact that the liability for the new bridge whether it be of the cantilever or any cheaper type, should rest in the first instance on the people of Calcutta and its neighbourhood" is wholly gratuitous, inasmuch as the people of Calcutta and its neighbourhood will have to pay in various ways under the scheme proposed by my colleagues as indicated above even if no levy on the rateable value of Calcutta and Howrah is made

The principle recommended in the report involves a very wrong policy If this is adopted, it would paralyse the municipalities concerned to extend their activities in many beneficent directions for a very long time to come These bodies are expected to undertake a lot of fresh responsibilities in the near future, such as new schemes for adequate supply of pure drinking water, the provision of new drainage schemes, the improvement of primary education and sanitation, the development of the added areas, etc, etc The question as to wherefrom the Calcutta Corporation will find the money required for carrying out all these objects has not, I am afraid, received sufficient consideration from the authors of the report The Corporation of Calcutta is, perhaps the most important among the self-governing institutions in the province, and any scheme which is likely to hamper and obstruct its legitimate activities, cannot have the support of right minded persons Under the circumstances, I strongly oppose the proposal of imposing an additional burden on the municipal rates

I am sorry that I feel compelled at this stage to advert to the original proposals of my colleagues as regards ways and means, which are given below

	Rs.
Bridge tax on Calcutta and neighbouring municipalities	6,00,000
Bridge tax on Howrah	1,00,000
Levy on goods traffic by rail and river and boat at 1 pie per maund	7 30 000
Terminal tax on passengers by rail at 3 pies	5,40,000
Tax on passengers by sea at 8 annas	1,20,000
Tax on railway parcels at 1 anna per rupee	3,50,000
Tax on postal parcels at 1 anna per rupee	3,50,000
Tramway track rent	50,000
Contribution from the Government of Bengal	5,00,000
Contribution from the Imperial Government	5,00,000
Total	38,40,000

It would thus be seen that my colleagues originally recommended a scheme of taxation which would have yielded a sum of Rs 38,40,000, but on second consideration they have changed it in such a way as to yield a sum of Rs 31,70,000 only. I am sorry that although they have agreed to my suggestion by reducing the amount from Rs 38 40,000 to Rs 31,70,000, they have still retained their proposal to tax the municipalities If from the original scheme of taxation the municipalities concerned are excluded, and the other items are retained, there would be a reduction in the yield of taxation from Rs 38,40,000 to Rs 31,40,000 It appears to me that the Indian public would much prefer the original scheme of taxation so amended to the revised scheme I would, therefore, recommend the adoption of the original scheme which, after omitting the first two items amounting to Rs 7 lakhs, would yield Rs 31,40,000 In my opinion, this amount should be enough for the purpose for which it is required

I may, however, point out that in making the above suggestions I have followed as closely as possible the channels of taxation recommended by my colleagues, although I am not quite convinced that there are not others which would not only be less objectionable, but be conducive to the best interests of the country For example, I may mention the levying of a percentage on the freight earned by non-Indian steamers entering and leaving the port of Calcutta I believe that if ½ per cent of such freight be collected as Bridge Tax it will yield not less than 5 lakhs of rupees per annum I think that if any of the items be not satisfactory, the contribution from either the Government of Bengal or the Imperial Government should be increased, or the Port Commissioners be asked to make a contribution, or a percentage be levied on the freight earned by non-Indian steamers I desire to make it clear, however, that in no case should the amount to be raised exceed 31½ lakhs of rupees per annum for a period of sixty years

RESOLUTION ON THE BUDGET ESTIMATE OF INCOME AND EXPENDITURE OF THE HOWRAH BRIDGE FOR THE YEAR 1923-24.

GOVERNMENT OF BENGAL.

MARINE DEPARTMENT.

CALCUTTA, THE 20TH JULY 1923.

RESOLUTION—No 2457 Marine

READ—

The budget estimate of Income and Expenditure of the Howrah Bridge for the year 1923-24.

Receipts.—The estimate of receipts for the year is placed at Rs. 4,37,402, reproducing the revised estimate for 1922 23 The receipts from the East Indian Railway traffic for the year are estimated at Rs. 3,25,000, the amount shown in the revised estimate for 1922-23, against the budget estimate of Rs 2,75,000 for that year.

Expenditure.—The estimate of total expenditure for the year is Rs. 3,95,819, which is Rs 32,000 less than the revised estimate for the preceding year The estimate shows appreciable decrease in expenditure under the heads "Stores" and "Maintenance and Repairs"

2. Against a debit balance of Rs. 48,981 shown in the budget estimate for 1922-23 a surplus of Rs 9,580 is shown in the revised estimate and as a consequence the estimated debt of the bridge to the Port Commissioners at the end of 1922-23 is reduced after necessary adjustments from Rs. 5,33,523 to Rs. 4,98,184

The Governor in Council notes with satisfaction this improvement in the financial position of the Bridge

Resolved that the budget estimates for 1923-24 be approved under section 21 of the Howrah Bridge Act, 1871

By order of the Governor in Council,

A MARR,

Secretary to the Government of Bengal.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 18th July 1923.

Summary.—The rainfall during the week was very heavy in parts of North Bengal; elsewhere the all was much below the normal. More rain is urgently needed throughout the Province for the ransplantation of winter paddy seedlings and for the growth of the standing crops except in some North Bengal districts where the standing crops have been materially damaged by continuous and heavy ainfall. Cutting and steeping of lowland jute and reaping of autumn paddy are proceeding satisfactorily n East and North Bengal. The average price of common rice for the Province has slightly fallen as ompared with that of the previous week.
